

STUDENT SCHOLAR PROGRAMS!

*Advance your academic professional development,
check out these amazing funding opportunities!*

Academic Affairs Grant Funding

Any conference/workshop travel from July 1, 2022 to May 1, 2023 is eligible for the grants. If a student has already attended and/or presented at a conference this summer after July 1, or if they plan to attend a conference this Fall or Spring, please submit an application as soon as possible. Students do not have to have already been accepted to the conference to apply for the grant in advance. Grants are awarded on a first-come-first served basis until funds run out, and then students will be placed on a waitlist.

Academically Related Activities (ARA) Grant

- Can be used for registration fees, lodging, and transportation expenses for students that are attending **and presenting** at a conference, workshop, or other academically related activity outside of class.
- Max Award: \$300 (in state); \$500 (out of state)

Student Academic Development (SAD) Grant

- Can be used for registration fees, lodging, and transportation expenses for students that attend a conference, workshop, or other academically related activity outside of class.
- Max Award: \$300

Students can review requirements on the [Academic Affairs website](#).

Additional Opportunities

[U.S. Department of Energy Science Undergraduate Laboratory Internships Spring 2023](#)

- Application Deadline: October 5, 2022 5pm EDT
- The U.S. Department of Energy (DOE) Office of Science, Science Undergraduate Laboratory Internships program encourages undergraduate students and recent graduates to pursue STEM careers by providing research experiences at the DOE laboratories.
