California State University, Sacramento
Department of Communication Sciences and Disorders

Clinical Practicum: Speech 1
Spring Semester, 2018
Times and Dates TBD Based on Clinic Schedule

Didactic Instructor
Tonia Davis, PhD, CCC-SLP
Email tonia.davis@csus.edu
Office: Folsom Hall TBD
Office Hours: T/W 1:30pm-3pm and by appointment
Phone: 916-278-6679

Clinical Instructors
TBD

Catalog Course Description
Supervised clinical practice emphasizing articulation and phonological disorders, and phonological difficulties associated with English as a second language (ESL). Clients may include both children and adults.
Corequisite(s): CSAD 228A.

Other Requirements
1. GPA in prerequisite speech pathology courses of 3.00 or better.
2. Grades of C or better in all courses taken in the major.
3. Be concurrently enrolled in CSAD 228A.
4. Passing of speech and language screening required by department.
5. Department Background Check (if not already done).
6. Completion of a TB test and the 3 shot Hepatitis (HBV) series of vaccinations.

Learning Objectives
Upon completion of this course the student will be able to:
1. Design, plan, and carry out assessments using standardized tests, informal measures and observations, interviews and conferences, and review of client files, predominantly in the content areas of articulation and language.

2. Appropriately interpret and apply assessment information to design a treatment program. This program should be sequenced hierarchically and written in a behavioral objective format that includes:
   a. Long term semester goals
   b. Short term objectives
   c. Treatment methods/procedures

3. Complete a minimum of 30 total hours of client contact with at least 2 clients. You are required to complete at least 4 hours in assessment.

4. Complete a case report for each client which contains a plan for clinical intervention that is tailored specifically for that individual client.

5. Create a set of pertinent history/interview questions.

6. Complete a client/caregiver interview, utilizing the question set, but be able to listen to the client/caregiver and be able to add and/or revise questions as necessary during the interview.

7. Implement the treatment plan in a time efficient and effective manner while making the plan and treatment methods interesting and inviting to the client.

8. Discuss with the client/caregiver the assessment findings and the treatment plan in a proactive, yet compassionate manner.

9. Update the client/caregiver on a regular basis about the progress being made under the treatment plan.

10. Utilize formal and informal measures to assess progress in treatment and collect data in a structured and organized manner.

11. Write Initial Case and Final Case Reports that reflect the semester of assessment and treatment.

12. Attend weekly conferences with the assigned clinical instructor and assist her in the planning and implementation of goals for that conference.

13. Develop and implement professional and ethical behaviors, as required, with the client, caregiver, supply room clerks, and clinical instructor.

The above learning outcomes will be assessed through weekly written lesson plans, Initial and Final Case Reports, skill with client assessment, the creation and implementation of therapy techniques, and the use of professional behavior. A midterm and final competency evaluation will be completed by the clinical instructor in writing and presented, as well, in a verbal discussion with the graduate clinician (student).

Course Policies

Attendance: Prompt attendance at clinic treatment sessions is required at all times. Any missed assessment or treatment sessions must be made up during the week between the end of clinic and finals week and with the approval of your clinical instructor. A clinical instructor must be supervising your sessions at all times.
Clinical Instructors: Your clinical instructor and your therapy times have been assigned to you based upon the schedule that you provided to the scheduling office. No change to your schedule may be made without the approval of the Clinic Coordinator. Your Clinical Instructors are required to meet with you on a weekly basis. Those meetings may be individual or group conferences to discuss clients and assessment/treatment plans. Attendance at these conferences is mandatory. If you have concerns that your clinical issues are not being adequately addressed, you should first talk with your clinical instructor. If you continue to remain concerned, speak with the Clinic Coordinator.

Clinic Policies

Clinic Handbook: A Clinic Handbook will be provided to you at the start of the semester. You are responsible for following the policies and procedures described in the Clinic Handbook.

Video Recordings: Video Recordings of clients MUST remain in the clinic. All video recordings may be downloaded to a flash drive and must be immediately deleted after the student has reviewed the recorded session. They can be viewed in an available therapy room or the Student Clinician’s room. They can also be used for classroom presentations, then deleted. These recordings may not be taken home. A violation of this policy will result in the student receiving a failing grade in the clinic.

Grading Policy: A passing grade for clinic performance is based on the Final Clinical Competencies. You should review competencies BEFORE clinic starts so that you aware of all items that will become part of your formative and summative assessment for this clinic. The Clinical Competencies will be completed by your clinical instructor at midterm and at final, but it is the final Clinical Competency Report on which your clinic grade is based. The Clinical Competencies are separated into four (4) general categories: Writing, Assessment, Treatment, and Professional Behavior. Each general competency area consists of numerous individual line items.

A passing grade for each clinic is a B- or higher. A passing grade is obtained by achieving a rating of 4.0 or better on the average combined score of the 4 general competency categories, provided that the student achieves; (a) an average rating of 4.0 or better for each of the 4 general competency categories and (b) a minimum score of 3.0 on all individual competency line items. Therefore, any student receiving (a) a rating of 2.99 or less on any one (or more) specific line item or (b) a rating of 3.99 or less for a competency category will not pass the clinic, even if their average combined score of the 4 general competency categories is a B- or higher. In such cases, a grade of C+ will be given for the clinic.

SCHEDULE

Week 1 Clients are assigned. Read client files. Make appointment with Clinical Instructor (CI) to plan first sessions. Write a summary of client information to take to your first meeting with CI.

Week 2 Interview questions due to clinical instructors, if required. Review tests and prerequisite course notes. Decide on tests and practice prior to initiation of therapy. Start writing the Pertinent History section of the Initial Case Report with information contained in the client’s file.

Week 3 First week of clinic for most clients. Have client sign Client Permission form and complete first session paperwork. Review clinic policies and procedures, including the Notice of Privacy Practice form. Conduct interviews. Play with child clients and obtain a language & speech sample. Obtain a speech & language sample from adult clients by chatting; maybe begin testing with adult clients. Revise Pertinent History section of the Initial Case Report to include a summary of the interview information. Bring speech sample analysis (with summary of client’s speech errors) to methods class.

Week 4 Conduct evaluations. Complete informal probing to determine candidate goals, narrow down candidate goals to 3-4 with CI approval. Chart baseline behaviors/collection baseline data on candidate goals. Summary of interview due to clinical instructor if required. Score all formal/informal tests administered to date. Score your assessment protocols on the same day as you complete the assessment.

Week 5 Continue assessment, score tests, analyze test results and write the assessment section of your Initial Case Report.

Week 6 Initial Case Report is due in the Methods class and to your CI. Provide CI with a copy of your treatment plan. Begin treatment plan. Discuss assessment and treatment plan with client/caregivers.

Week 7-8 Make revisions to ICR following CI feedback. Midterm performance evaluations/conferences occur by the end of week 8.

Weeks 9-13 Continue with treatment plan. Prepare first draft of Final Case Report.

Weeks 14-15 Last week of Clinic: Conduct Final Conference with Client/Caregiver. All final reports must be completed, signed and ready to go into the client’s file. Release forms for exchange of information should be included with report. Submit client contact hours form to clinical instructor.

CSAD 229A Practica: Speech Disorders I

This course has been designed to be in direct support of the following American Speech-Language Hearing Association (ASHA) Knowledge and Skills Acquisition for certification in Speech-Language Pathology:

Standard IV-E, IV-G, IV-H: Contemporary Professional Issues
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re:
standards of ethical conduct.

- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: contemporary professional issues and advocacy.

Standard IV-F: Research

- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: processes used in research and integration of research principles into evidence-based clinical practice.

Standard V-A: Oral and Written Communication

- The student will demonstrate skill in oral and written or other forms of communication sufficient for entry into professional practice.

Standard IV-B: Basic Human Communication Processes

- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: acoustic bases of human communication.
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: developmental/lifespan bases of human communication.
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: linguistic bases of human communication.
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: cultural bases of human communication differences.

Standard V-B 1a. Conduct screening and prevention procedures (including prevention activities)

- The student will demonstrate the ability to conduct screening and prevention procedures in the area of articulation.

Standard V-B 1b. Collect case history information and integrate information from clients/patients, family, caregivers, teachers, relevant others, and other professionals

- The student will demonstrate the ability to collect case history information and integrate information from clients/patients, family, caregivers, teachers, relevant others, and other professionals in the area of articulation.

Standard V-B 1c. Select and administer appropriate evaluation procedures, such as behavioral observations nonstandardized and standardized tests, and instrumental procedures

- The student will demonstrate the ability to select and administer appropriate evaluation procedures, such as behavioral observations, nonstandardized and standardized tests, and instrumental procedures in the area of articulation.

Standard V-B 1d. Adapt evaluation procedures to meet client/patient needs

- The student will demonstrate the ability to adapt evaluation procedures to meet client/patient needs in the area of articulation.

Standard V-B 1e. Interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention

- The student will demonstrate the ability to interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention in the area of articulation.

Standard V-B 1f. Complete administrative and reporting functions necessary to support evaluation

- The student will demonstrate the ability to complete administrative and reporting functions necessary to support evaluation in the area of articulation.

Standard V-B 1g. Refer clients/patients for appropriate services

- The student will demonstrate the ability to refer clients/patients for appropriate services in the area of articulation.
Standard V-B 1a. Conduct screening and prevention procedures (including prevention activities)
• The student will demonstrate the ability to conduct screening and prevention procedures in the area of receptive and expressive language.

Standard V-B 1b. Collect case history information and integrate information from clients/patients, family, caregivers, teachers, relevant others, and other professionals
• The student will demonstrate the ability to collect case history information and integrate information from clients/patients, family, caregivers, teachers, relevant others, and other professionals in the area of receptive and expressive language.

Standard V-B 1c. Select and administer appropriate evaluation procedures, such as behavioral observations nonstandardized and standardized tests, and instrumental procedures
• The student will demonstrate the ability to select and administer appropriate evaluation procedures, such as behavioral observations, nonstandardized and standardized tests, and instrumental procedures in the area of receptive and expressive language.

Standard V-B 1d. Adapt evaluation procedures to meet client/patient needs
• The student will demonstrate the ability to adapt evaluation procedures to meet client/patient needs in the area of receptive and expressive language.

Standard V-B 1e. Interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention
• The student will demonstrate the ability to interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention in the area of receptive and expressive language.

Standard V-B 1f. Complete administrative and reporting functions necessary to support evaluation
• The student will demonstrate the ability to complete administrative and reporting functions necessary to support evaluation in the area of receptive and expressive language.

Standard V-B 1g. Refer clients/patients for appropriate services
• The student will demonstrate the ability to refer clients/patients for appropriate services in the area of receptive and expressive language.

Standard V-B 1a. Conduct screening and prevention procedures (including prevention activities)
• The student will demonstrate the ability to conduct screening and prevention procedures in the area of social aspects.

Standard V-B 1b. Collect case history information and integrate information from clients/patients, family, caregivers, teachers, relevant others, and other professionals
• The student will demonstrate the ability to collect case history information and integrate information from clients/patients, family, caregivers, teachers, relevant others, and other professionals in the area of social aspects.

Standard V-B 1c. Select and administer appropriate evaluation procedures, such as behavioral observations nonstandardized and standardized tests, and instrumental procedures
• The student will demonstrate the ability to select and administer appropriate evaluation procedures, such as behavioral observations, nonstandardized and standardized tests, and instrumental procedures in the area of social aspects.

Standard V-B 1d. Adapt evaluation procedures to meet client/patient needs
• The student will demonstrate the ability to adapt evaluation procedures to meet client/patient needs in the area of social aspects.

Standard V-B 1e. Interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention
• The student will demonstrate the ability to interpret, integrate, and synthesize all information to
develop diagnoses and make appropriate recommendations for intervention in the area of social aspects.

Standard V-B 1f. Complete administrative and reporting functions necessary to support evaluation
- The student will demonstrate the ability to complete administrative and reporting functions necessary to support evaluation in the area of social aspects.

Standard V-B 1g. Refer clients/patients for appropriate services
- The student will demonstrate the ability to refer clients/patients for appropriate services in the area of social aspects.

Standard V-B 2a. Develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs. Collaborate with clients/patients and relevant others in the planning process
- The student will demonstrate the ability to 1) develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs and 2) collaborate with clients/patients and relevant others in the planning process in the area of articulation.

Standard V-B 2b. Implement intervention plans (involve clients/patients and relevant others in the intervention process)
- The student will demonstrate the ability to implement intervention plans (involves clients/patients and relevant others in the intervention process) in the area of articulation.

Standard V-B 2c. Select or develop and use appropriate materials and instrumentation for prevention and intervention
- The student will demonstrate the ability to select or develop and use appropriate materials and instrumentation for prevention and intervention in the area of articulation.

Standard V-B 2d. Measure and evaluate clients'/patients' performance and progress
- The student will demonstrate the ability to measure and evaluate clients'/patients' performance and progress in the area of articulation.

Standard V-B 2e. Modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients
- The student will demonstrate the ability to modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients in the area of articulation.

Standard V-B 2f. Complete administrative and reporting functions necessary to support intervention
- The student will demonstrate the ability to complete administrative and reporting functions necessary to support intervention in the area of articulation.

Standard V-B 2g. Identify and refer clients/patients for services as appropriate
- The student will demonstrate the ability to identify and refer clients/patients for services as appropriate in the area of articulation.

Standard V-B 2a. Develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs. Collaborate with clients/patients and relevant others in the planning process
- The student will demonstrate the ability to 1) develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs and 2) collaborate with clients/patients and relevant others in the planning process in the area of receptive and expressive language.

Standard V-B 2b. Implement intervention plans (involve clients/patients and relevant others in the intervention process)
- The student will demonstrate the ability to implement intervention plans (involves clients/patients and relevant others in the intervention process) in the area of receptive and expressive language.
Standard V-B 2c. Select or develop and use appropriate materials and instrumentation for prevention and intervention
- The student will demonstrate the ability to select or develop and use appropriate materials and instrumentation for prevention and intervention in the area of receptive and expressive language.

Standard V-B 2d. Measure and evaluate clients'/patients' performance and progress
- The student will demonstrate the ability to measure and evaluate clients'/patients' performance and progress in the area of receptive and expressive language.

Standard V-B 2e. Modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients
- The student will demonstrate the ability to modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients in the area of receptive and expressive language.

Standard V-B 2f. Complete administrative and reporting functions necessary to support intervention
- The student will demonstrate the ability to complete administrative and reporting functions necessary to support intervention in the area of receptive and expressive language.

Standard V-B 2g. Identify and refer clients/patients for services as appropriate
- The student will demonstrate the ability to identify and refer clients/patients for services as appropriate in the area of receptive and expressive language.

Standard V-B 2a. Develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs. Collaborate with clients/patients and relevant others in the planning process
- The student will demonstrate the ability to 1) develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs and 2) collaborate with clients/patients and relevant others in the planning process in the area of social aspects.

Standard V-B 2b. Implement intervention plans (involve clients/patients and relevant others in the intervention process)
- The student will demonstrate the ability to implement intervention plans (involves clients/patients and relevant others in the intervention process) in the area of social aspects.

Standard V-B 2c. Select or develop and use appropriate materials and instrumentation for prevention and intervention
- The student will demonstrate the ability to select or develop and use appropriate materials and instrumentation for prevention and intervention in the area of social aspects.

Standard V-B 2d. Measure and evaluate clients'/patients' performance and progress
- The student will demonstrate the ability to measure and evaluate clients'/patients' performance and progress in the area of social aspects.

Standard V-B 2e. Modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients
- The student will demonstrate the ability to modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients in the area of social aspects.

Standard V-B 2f. Complete administrative and reporting functions necessary to support intervention
- The student will demonstrate the ability to complete administrative and reporting functions necessary to support intervention in the area of social aspects.

Standard V-B 2g. Identify and refer clients/patients for services as appropriate
- The student will demonstrate the ability to identify and refer clients/patients for services as appropriate in the area of social aspects.
Standard V-B 3a. Communicate effectively, recognizing the needs, values, preferred mode of communication, and cultural/linguistic background of the client/patient, family, caregivers, and relevant others.

- The student will demonstrate the ability to communicate effectively, recognizing the needs, values, preferred mode of communication, and cultural/linguistic background of the client/patient, family, caregivers, and relevant others.

Standard V-B 3b. Collaborate with other professionals in case management.

- The student will demonstrate the ability to collaborate with other professionals in case management.

Standard V-B 3c. Provide counseling regarding communication and swallowing disorders to clients/patients, family, caregivers, and relevant others.

- The student will demonstrate the ability to provide counseling regarding communication and swallowing disorders to clients/patients, family, caregivers, and relevant others.

Standard V-B 3d. Adhere to the ASHA Code of Ethics and behave professionally.

- The student will demonstrate the ability to adhere to the ASHA Code of Ethics and behave professionally.
