CSAD 500C: Culminating Experience: Comprehensive Exam
This course has been designed to be in direct support of the following American Speech-Language Hearing Association (ASHA) Knowledge and Skills Acquisition for certification in Speech-Language Pathology

CALIFORNIA STATE UNIVERSITY SACRAMENTO
Department of Communication Sciences & Disorders (CSAD)
Fall Semester 2018

Course Title: Culminating Experience: Comprehensive Exam
Units: 2
Grade: Credit/No credit
Course: CSAD 500C
Class Number 33074
Day of the week: January 18 & 19, 2018
Class Time: 8:45 a.m. – 4:15 p.m.
Building/Room: Folsom Hall (FLS), 2nd Floor, Computer Lab
Instructor: Darla K. Hagge Ph.D. CCC-SLP

Instructor’s Office: Shasta Hall, #268
Office Hours: By appointment, please contact instructor

Contact Information: hagge@csus.edu; 916/278-6695
714/749-2799, cell [If time-sensitive]
Office: Shasta Hall #255
Office Hours: Office hours: M, 12-2 / T, 2-3 / W, 12-2
[Note: Days/times will change at mid-semester]

To make an appointment with Dr. Hagge, please call 916/278-4867 or visit the Front Desk at Folsom Hall, 2nd floor.
Note: The entrance to the Front Desk and Dr. Hagge's office: Door #2316.
Dr. Hagge’s Office is #2405

PREREQUISITES:
Advanced to Candidacy in the CSUS speech-language pathology master’s program

A. PLACE OF COURSE IN PROGRAM
This course is one of the required culminating experiences: SPHP 500C Comprehensive Exam. All graduate students must complete one of the culminating experiences in the CSUS speech-language pathology master’s program: 500C, 500P, or 500T.

B. COURSE OBJECTIVES:
To demonstrate competency in speech-language pathology and audiology by the successful passage of the comprehensive examination.

C. COURSE POLICIES, GRADING AND SCHEDULE:
• Comprehensive examination is a written exam comprised of eight questions administered across two consecutive days.
• Examinees are given one and a half hours to complete each question.
Testing materials are provided to examinees including an assigned computer and flashdrive. Comprehensive Exams are scheduled once per semester at the discretion of the department. Upon completion and review by the examiners, each question is given a grade of “Outstanding”, “Pass”, "Pass with conference" or "No-Pass."

1) "Pass" indicates a satisfactory completion of the question.
2) "Pass with conference" indicates a pass, but the examiner requires oral or written clarification of the answer from the student. This must be completed before the fourteenth week of the semester in which the exam is taken. Conferences are scheduled at the discretion of the examiner.

3) "No-Pass" indicates an unsatisfactory answer.
   - The student may receive a “No-Pass” for up to two questions without retaking the entire exam. These “No-Pass” questions must be rewritten under the direction of the examiner.
   - Question rewrites must be successfully completed with a grade of “Pass” before the fourteenth week of the semester in which the exam is taken.
   - If any rewritten question is not passed, the student receives a grade of No Credit (NC) for CSAD 500C.
   - If three or more questions of the exam receive a grade of “No-Pass”, the student receives a grade of No Credit (NC) for SPHP 500C.
   - Student receiving a grade of No Credit (NC) for SPHP 500C must register again in CSAD 500C and retake the comprehensive exam at the next scheduled administration.
   - Students may take CSAD 500C no more than two times. The same conditions for grading apply on the retake as on the first attempt at passing the comprehensive examination.

This space intentionally left blank.
CSAD 500C: Culminating Experience: Comprehensive Exam

This course has been designed to be in direct support of the following American Speech-Language Hearing Association (ASHA) Knowledge and Skills Acquisition for certification in Speech-Language Pathology:

Standard IV-C: Speech, Language, Hearing, Communication, and Swallowing Disorders and Differences

- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: phonology, articulation disorders (including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: fluency disorders (including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: voice and resonance disorders (including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: receptive and expressive language disorders (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication, and paralinguistic communication) in speaking, listening, reading, writing, and manual modalities (including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: hearing disorders (including the impact on speech and language including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: swallowing disorders (oral, pharyngeal, esophageal, and related functions, including oral function for feeding; orofacial myofunction,) including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: cognitive aspects of communication (e.g., attention, memory, sequencing, problem solving, and executive functioning), including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: social aspects of communication (e.g., behavioral and social skills affecting communication), including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: communication modalities, including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.

Standard IV-D: Prevention, Assessment, and Intervention

- The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding articulation.
- The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding fluency.
• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding voice and resonance.

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding receptive and expressive language (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication, and paralinguistic communication) in speaking, listening, reading, writing, and manual modalities.

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, screening, and intervention regarding hearing, including the impact on speech and language.

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding; orofacial myofunction).

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding cognitive aspects of communication (e.g., attention, memory, sequencing, problem solving, and executive functioning).

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding social aspects of communication (e.g., behavioral and social skills affecting communication).

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of assessment and intervention regarding communication modalities.

**Standard IV-E, IV-G, IV-H: Contemporary Professional Issues**

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: standards of ethical conduct.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: contemporary professional issues and advocacy.

**Standard IV-F: Research**

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: processes used in research and integration of research principles into evidence-based clinical practice.

**Standard V-A: Oral and Written Communication**

• The student will demonstrate skill in oral and written or other forms of communication sufficient for entry into professional practice.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: biological bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: neurological bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: acoustic bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: psychological bases of human communication.
The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: developmental/lifespan bases of human communication.

The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: linguistic bases of human communication.

The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: cultural bases of human communication differences.

**Standard IV-B: Swallowing Processes**

- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: biological bases of human communication.
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: neurological bases of human communication.
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: psychological bases of human communication.
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: developmental/lifespan bases of human communication.
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: cultural bases of human communication differences.
