PREFACE

To all Field Instructors, Students and Field Faculty

This Curriculum & Policy Guide: BSW Field Education or “BSW Field Manual” was written for you. It contains the what, why, and wherefore that will facilitate the education, training, gate keeping and professional development responsibilities each of you assumes when you take on your respective field education roles.

Please review these guidelines before you begin the field internship.

Field is the “Heart of Social Work Education.” It is the theory/practice nexus that demonstrates a student’s readiness for the profession. Not simply an internship or an apprenticeship, field is an educational and professional development effort that involves real live clients and situations. Because of this, the utmost care must be given to this collective endeavor.

This Field Manual includes:

1. The Division of Social Work’s vision, mission, goals, objectives and overall student standards;

2. The Field Syllabus;

3. The roles and responsibilities of the Division, Agency/Organization, Field Instructor, and Student in the field education experience; and

4. The BSW Field Education Policies and Procedures that facilitate the:
   - Professional development of the student
   - Integration of classroom and field content
   - Prevention/resolution of field problems

The Field Education program of the Division of Social Work thanks each of you for carrying out your roles and responsibilities, and thanks every agency that volunteers its resources to assist in the education and training of competent professional social workers.
GLOSSARY OF TERMS

Client Systems: Refers to the “focus of intervention”/“target for change”. This may be an individual, a couple, a family, a small group, a large group, an organization, a community, or society—politics & legislation and the environment in which the client exists.

Environment: Is the context, including the natural world, in which the client exists (context includes elements such as socio-economic and political conditions, culture, community, transportation or educational system, and so on).

Field Instructor: Is the student’s “social work educator in the field.” This is a person with a BSW or MSW degree who is employed by the field agency (or who contracts with the agency) and is willing and able to provide instruction to a particular student and who has participated in the Division’s Field Instructor training.

Task Supervisor: Is a regular agency staff member who is responsible for the day-to-day assignments of the student and the observation and assessment of the skills portion of student learning. This person works closely with the Field Instructor to oversee the student’s placement, and does not need to have a social work degree.

Faculty Field Liaison: Is a faculty member of the Division of Social Work who is responsible for monitoring the student’s field experience and recommending the student’s grade for the field course.

Generalist: Refers to the student who can engage in beginning social work practice with all client systems using social work roles such as advocate, broker, caseworker and employing the empowerment and strengths perspectives in their approach to working with clients.

Levels of Practice: Is a way of categorizing which refers to the size and complexity of the different client systems. Going from smallest (the individual) to largest (society), the terms variously used are as follows: micro (individuals, couples, families), mezzo (small treatment or task groups), macro (large groups, organizations, communities, society—politics & legislation); or direct (individuals, couples, families, treatment groups) and indirect (task groups, organizations, communities, society); or small system (individual, couple, families, treatment/task groups), and large system (organizations, communities, society).

Processing: This is a term used in the Social Work profession which refers to the act of “reflecting upon” the field experience. Students “reflect” upon what they are engaged in and what they have learned by “doing.” Processing time includes the instructional hour, time to do written field assignments (such as “process recordings” and the field journals), self-reflection, and processing after each client or major activity.

SECTION I
DIVISION VISION, MISSION GOALS AND STUDENT STANDARDS

The Division of Social Work is part of a comprehensive regional University located in the State Capital. Its service area encompasses an urban/suburban/rural area. Given its service area, the Division is committed to addressing the professional needs of both rural and urban areas. It meets this commitment by providing CSWE accredited educational programs which focus on the empowerment of all oppressed groups and issues of social and economic justice.

The Division’s mission of both the BSW and MSW programs is consistent with the professional competence and leadership missions of the University and the College of Health and Human Services. The following Vision, Mission, and Guiding Principles were unanimously adopted by faculty in October, 2006.

VISION

We envision our graduates to be part of a globally conscious educational community with a lifelong passion for learning and a quest for excellence whose practice is guided by a commitment to sustainable human and societal development. Our individual faculty strengths join to create a mosaic of integrated program excellence. Our curriculum is distinctive and continually works toward evaluation and dynamic change through engagement and interaction with our diverse community. Through teaching, research, and joint collaboration we address solutions to community and world problems using various levels of intervention with a commitment to social justice.

MISSION

The Division of Social Work strives to prepare competent social workers who can both lead and serve the richly diverse region in the development and delivery of services that contribute to human well-being and social justice. Towards this end, the Division offers high quality undergraduate and graduate degree programs and teaching, research, and joint collaboration with the community.

Our mission is strengthened by the following guiding principles:

- As the Division of Social Work, we value the richness of human diversity; respect for human uniqueness; and constructive response to the challenges of diversity in an evolving pluralistic society.

- We value an educational curriculum and practice approaches that advance social justice: including, but not limited to, the attention to human rights; confrontation and transformation of oppressive forces; and empowerment of populations at risk.

- We value the importance of human relationships that are strength-based and promote human well-being, through collaborative and partnership processes.

- We value the preparation of ethically-driven, critical-thinking change agents who practice with and on behalf of individuals, families, groups, organizations, and communities.
• We value recruiting and maintaining a diverse faculty who collectively share the division’s
  guiding principles and whose individual strengths and experiences provide special
  expertise to accomplish the division’s mission.

• We value the inevitability of change as evidenced by our commitment to a curriculum that
  is dynamic and responsive to different levels of knowledge and practice approaches.

GOALS
The following Division of Social Work goals derived from this mission serve as goals for both the
BSW and MSW programs.

1. Leadership
   Provide leadership in the development and delivery of services responsive to strengths and
   challenges with the context of human diversity, human rights, oppression and social justice.

2. Competencies
   Prepare ethnically-driven, critical thinking, competent entry level and advanced professional
   social workers with a generalist perspective and skills as applied to specific and emerging
   areas of practice.

3. Curriculum
   Provide curriculum and teaching practices at the forefront of the new and changing
   knowledge base of the theory and research in social work related disciplines as well as the
   changing needs of our diverse client systems.

4. Global Perspective
   Analyze, formulate and influence social policies that develop and promote a global as well
   as local perspective within the context of the historical emergence of Social Work practice
   regarding human rights, oppression and social justice.

5. Accessibility
   Structure and offer programs and curricula in a way that provides availability and
   accessibility (weekend, night classes) that meet the needs of our diverse student body as well
   as complies with CSWE accreditation standards.

6. Diversity
   Recruit, develop and retain diverse students and faculty who will through multi-level practice
   contribute special strengths to our programs and profession.

BSW PROGRAM LEARNING OBJECTIVES
Graduates demonstrate the ability to:

1. Apply critical thinking skills to question, understand, and analyze phenomena in the
   context in which they occur (critical thinking).

2. Internalize professional values and ethics of the NASW Code of Ethics and the principles
   for ethical decision making (values and ethics).

3. Respect the multi-dimensions of diversity and understand the meaning of these in practice
   with and on behalf of diverse client systems (diversity).
4. Understand the forms and mechanisms of oppression and discrimination and apply strategies of empowerment, advocacy, and social action that advance social and economic justice (oppression and social justice).

5. Identify and interpret significant trends and issues in the history of the social work profession and its contemporary practices and issues (social work profession).

6. Apply the general problem-solving and strength-based methods and selected theory and skills specific to practice with individuals, families, groups, organizations, and communities (generalist practice).

7. Apply developmental and ecosystems perspectives and selected human behavior theories to multidimensional assessments in generalist practice (human development and behavior).

8. Assess the relationship of social policies to client system needs and engage in planned activities to develop policies and services responsive to human well-being and social justice (social welfare policies and services).

9. Develop an empirical base for practice through evaluation of research studies, use of research findings, and evaluation of practice interventions (research).

10. Use relationship and communication skills to establish facilitative conditions for professional relationships (relationship/communication skills).

11. Use supervision and consultation for continuous development of awareness, knowledge, values, and skills (supervision and consultation).

12. Use organizational resources to serve client systems and help develop needed resources (organizational competence).

STUDENT STANDARDS

Overarching Principles, Standards, and Educational Performance Outcomes for Students in the Division of Social Work

Based on the vision, mission, goals and objectives of the BSW Program, the Division of Social Work has identified the following Academic Standards for Student Performance. Students are expected to act according to these standards in all of their academic efforts, both classroom-based and field education. The standards are as follows:

1. **Behave in an Ethical Manner**
   A student who behaves in an ethical manner undertakes to thoroughly understand and adhere to professional and personal codes of conduct that reflect an unyielding respect for self and others. This student acts in an ethical and principled manner not because it is expedient or self-serving but rather because to do so engenders, uplifts, and strengthens the inherent value and dignity of all peoples and because it is right in outcome and means.

2. **Take Responsibility for Learning**
   A student who takes responsibility for learning demonstrates intellectual curiosity and initiative. This student understands the importance of regular, punctual attendance, is prepared to learn, sets learning goals, actively engages in learning tasks, uses available resources, evaluates own actions and works, and meets deadlines and due dates.
3. **Think Critically**  
A student who *thinks critically* demonstrates willingness to question, patience to doubt, and readiness to reconsider. This student reflects on and evaluates information, details, evidence, and/or his or her own ideas and work in order to draw conclusions, solve problems, and/or conduct investigations.

4. **Communicate Skillfully**  
A student who *communicates skillfully* writes and speaks in a clear, organized, and interesting manner. This student does so in both formal and informal situations and for a variety of audiences and purposes.

5. **Collaborate Effectively**  
A student who *collaborates effectively* works with peers and/or mentors to produce something greater than what could accomplish individually. This student initiates their own involvement, helps lead groups to set and achieve goals, is an active learner, acknowledges contributions, and works towards solutions.

6. **Produce Quality Work**  
A student who *produces quality work* exceeds the minimum requirements of tasks to create products or performances that reflect skill, creativity, sophistication, and scholarly achievement. This student gives attention to detail and, uses technology effectively to complete tasks, products and/or presentations.

7. **Assumes Responsibility for Obstacles to Learning**  
A student, who *assumes responsibility for obstacles to learning* prioritizes the need to act on impediments and obstacles, seeks assistance early, as needed, from appropriate sources, and strives to increase self-awareness about learning style and resources to maximize benefits from all learning experience.
Field Education is a core requirement of the BSW program. Field is series of integrated courses which place students in human service organizations under the instruction of professional social work practitioners (Field Instructor), and with the guidance of faculty from the Division of Social Work (Faculty Field Liaison). The Regular Semester Program has students in the field for 16 hours a week for 32 weeks (fall and spring semesters). The 2017 Pilot Summer Intensive Program has students in the field 40 hours a week for 12 weeks (first and second summer sessions). At the end of the placement, students are required to demonstrate a level of proficiency of social work practice commensurate with an entry-level BSW social worker.

Students take field courses concurrently with social work practice courses. Field Competencies and practice course objectives are designed for maximum integration of the field/practice experience. In most cases the student’s social work practice professor will also act as the student’s Faculty Field Liaison. The Field Syllabus can also be found on the field website.

Field Education is an educationally-directed internship through which students are expected to progress in their professional development from one course to the next. The program recognizes that students develop professionally at different rates, and allows for this differential timing within reason. Students who exhibit particular problem behaviors and/or skill deficiencies are expected to work on these areas and demonstrate improvement throughout the remainder of the program.

**COURSE INSTRUCTORS**

The Field Instructor: A Degreed Social Worker
The Field Instructor is the student’s “social work educator in the field.” The Field Instructor is a degreed social worker working within the placement agency, or contracted by the agency, who provides oversight of the student’s learning experience in the placement. Field Instructors for BSW students hold a baccalaureate or master’s degree (preferred) in social work from a CSWE-accredited program. A primary role of the Field Instructor is to teach the social work perspective.

The Faculty Field Liaison
The Faculty Field Liaison is a member of the Social Work faculty who tracks the placement, and provides consultation and monitoring for the student and the Field Instructor. In most cases, the Faculty Liaison will also be the student’s practice course professor. Students can expect the Faculty Liaison to monitor their placements through sites visits (once per field course), email, phone contact, video conferencing, class discussion and in-person meetings.

**BSW FIELD EDUCATION ADMISSION CRITERIA**

**LOWER DIVISION GENERAL EDUCATION (GE)** The field internship (SWRK 195A/B) is scheduled to occur in a student’s senior year. It is expected that all of a student’s “Lower Division GE” will be successfully completed (including Foreign Language Requirement) prior to a field placement. Not having all Lower Division GE completed may delay a student’s entry into a field internship.

**GRADE POINT AVERAGE** A student has to have an overall GPA of 2.0 or higher.
COMPLETE THE GRADUATION WRITING ASSESSMENT REQUIREMENT (GWAR)
Students will not be eligible to receive a field internship until they complete the GWAR. The process of completing these requirements can be a time consuming process and it should be planned for. The options for completing the GWAR include taking either the WPJ (Writing Placement Exam for Juniors) or taking English 109M/W, or a combination of the two.

1. Taking the WPJ Exam
   a. SCORE OF 80: If passing with a score of 80, the student can now register for a Writing Intensive Course (WIC). The WIC can occur in the same semesters as the field internship.
   b. SCORE OF 70: If passing with a score of 70, the student can now register for a Writing Intensive Course (WIC). The WIC can occur in the same semesters as the field internship. BUT with a score of 70, the student must also co-enroll in ENG109X along with the WIC.
   c. SCORE OF 60 OR BELOW: Scoring at 60 or below means the student must enroll in ENG109W or ENGM.

2. Taking a writing class - ENG 109W/M
   a. ENGL 109M and ENGL 109W are equivalent classes. ENGL 109M is meant specifically for multilingual students (students whose first language is not English). Students who take and successfully pass this class can now register for a Writing Intensive Course (WIC). The WIC can occur in the same semesters in the field internship.

Note: Students should take the WPJ in the fall or early in the spring semester prior to the field internship. If the student takes the WPJ late in the spring semester or in the summer, the field placement process WILL be delayed. This is because the waiting period to get a WPJ score takes approximately one month.

TOTAL NUMBER OF UNITS
Students have to have at least 78 units after the spring semester (prior to entering a field internship).

SOCIAL WORK COURSE PREREQUISITES
Students have to have pass with a C or better the following six courses by the end of the spring semester (prior to entering a field internship)
SWRK 95, SWRK 102, SWRK 125A, SWRK 125B, SWRK 140A SWRK 150

MANDATORY FIELD ORIENTATIONS
Students need to attend two separate BSW Field Orientations
1. First BSW Field Orientation/February: This orientation helps the student better understand the mission of field education. As well, the student will learn how to apply for a field internship.
2. Second BSW Field Orientation/August: This orientation occurs directly before the student enter into their internship. Topics covered: The Learning Agreement, the Council on Social Work Education (CSWE) Competencies, Safety in the Field, Legal and Ethical Concerns, and Self-Care.

CRIMINAL BACKGROUNDS
Students who have misdemeanors or felonies on their record (even if the convictions were long ago or have been expunged) must meet with either the Field Director or Field Coordinator prior
to receiving a field referral. There is requirement to complete paper work disclosing the offenses.

RESUME AND FIELD APPLICATION
The student needs to submit a completed BSW Field Application (March). An updated resume is required as part of this application.

AGENCY INTERVIEW AND FIELD REFERRAL PROCESS
The student interviews at and is accepted by an approved field agency. The student has three opportunities to interview. A field internship is not guaranteed by the Division of Social Work. A student has to be able to demonstrate a certain level of professionalism and aptitude in order to be accepted at a placement.

FIELD COURSES AND CO-REQUISITES
Field education courses (SWRK 195A & 195B) must be taken concurrently with social work practice courses (SWRK 140B & 140C). All students are required to take their social work practice course while they are in field placement and must meet all other University prerequisites (see the University Catalog). Students must be in good academic standing to proceed into field. Students must receive a “C” or better in the corresponding SWRK 140B practice AND a CR (Credit) in the 195A Field course in order to proceed into the next field and practice courses.

TIME REQUIREMENTS
Regular Semester Program
The time requirement for the BSW field course is 2 days/week, 8 hours/day, over the course of 32 weeks (Fall and Spring semester).

<table>
<thead>
<tr>
<th></th>
<th>Fall Semester</th>
<th>Spring Semester</th>
<th>Total Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>14 weeks x 16 hours = 224 hours</td>
<td>18 weeks x 16 hours x = 288 hours</td>
<td>32 weeks = 512 hours</td>
</tr>
</tbody>
</table>

*NOTE: These hours may vary depending upon University and Field Agency holidays.

2017 Pilot Summer Intensive Program
The time requirements for the BSW field course during Summer Block intensive program consists of 5 days/week, 8 hours day, over the course of 12 weeks (2) 6 week summer sessions.

<table>
<thead>
<tr>
<th></th>
<th>Summer Session 1</th>
<th>Summer Session 2</th>
<th>Total Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>6 weeks x 40 hours = 240 hours</td>
<td>6 weeks x 40 hours = 240 hours</td>
<td>12 weeks= 464 hours</td>
</tr>
</tbody>
</table>

- Field hours must be held during the time when the agency is active so the student can participate in the “life of the agency,” e.g., staff meetings, case conferences, and in-service trainings. This is almost always during the day (8am to 5pm), Monday through Friday. If a student cannot be available during these daytime hours, it is probable they will not be able to enroll in the field course. See “Evening and Weekend Policy,” below and in Appendix I.
- Field days for BSW students in the “Regular Semester Program” are generally on Monday and Wednesday, to accommodate the schedule of BSW classes. These days can vary if a student’s class schedule can accommodate the different field schedule.
- Field days for the “Summer Intensive Program” are Mondays through Fridays.
• Students will schedule their hours with the Field Instructor to meet the needs of the agency and to fulfill the students required 16 hours per week in field.
• Time spent commuting to and from the agency as well as non-working lunches may NOT be counted toward the field hour requirement.
• Time invested in field-related workshops must be pre-approved by the field instructor. Students may complete agency orientations and/or training in the summer prior to the first field semester. However, the hours spent pre-semester will not count towards the required field hours.
• Students must follow the Field Calendar published at the beginning of each academic year. Students may not accumulate hours in an effort to complete the requisite hours before the specified ending date for Field, and the Division of Social Work assumes no responsibility for any student who engages in field activities outside designated field time.
• Any alternative schedule must meet with the approval of both the agency and the Field Director and cannot conflict with the student's class schedule. These arrangements should allow for the student to participate in the "life of the agency," e.g., staff meetings, case conferences, and in-service training.
• Most placements run from early September through mid-May. Some agencies may require students to extend their placements beyond the dates on the Field Calendar but the student must be informed and must acknowledge this exception prior to accepting the placement. The Division, on occasion, requires students to attend on campus events during their normal field hours. Students are not required to make up these hours in their field agency (all such required meetings will be listed on the Field Calendar).

### Evening and Weekend Policy

Many students who work full time request evening or weekend internships because of their employment. The Division of Social Work, Field Education Office believes that interning during those hours would not provide the intern the opportunities and training necessary to fulfill the objectives/learning goals of an internship.

Field hours must be held during the time when the agency is active so the student can participate in the “life of the agency,” e.g., staff meetings, case conferences, and in-service trainings. This is almost always during the day (8am to 5pm), Monday through Friday. If a student cannot be available during these daytime hours, it is probable they will not obtain a field placement. The reasons for this policy include:

• Evenings and weekends offer no opportunities for case management as linkages are usually with agencies that are only open during the day hours on Monday through Friday.
• Agencies usually have assessment and treatment team meetings and staff meetings during the day. It is essential that interns get the opportunity to experience and participate in staff meetings.
• There is often limited opportunities to shadow other experienced social workers and other workers on the weekend and at night.
• Interns cannot attend necessary skills trainings (i.e., Sacramento County’s AVATAR training) or conferences that are only offered during the day.
• The needs of the Learning Agreement cannot be met by working evenings or weekends.

See “Evening and Weekend Policy” in Appendix I.
STUDENTS WITH DISABILITIES

Students in need of an accommodation in field due to a disability must follow the University procedures regarding students with disabilities (see University Catalogue). Students should contact Services for Students with Disabilities, 916-278-6955, for assessments and accommodation plans, prior to applying for field.

FIELD SEMINARS AND OTHER FACULTY LIAISON CONTACT

Faculty Liaisons can develop additional means of monitoring students’ placements outside of the practice class. In addition to practice class, Faculty Field Liaisons may require students to meet with the Faculty Liaison on a regular basis to discuss field issues.

FIELD EDUCATION COMPETENCIES

The following section lists the nine social work competencies on the BSW Learning Agreement:

1. Student demonstrates ethical and professional behavior.
   1.1 Make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context.
   1.2 Engages in productive problem-solving and appropriate conflict resolution and uses open communication.
   1.3 Use reflection and self-regulation to manage personal values and maintain professionalism in practice situations.
   1.4 Demonstrate professional demeanor in behavior, appearance, as well as oral, written, and electronic communication.
   1.5 Use technology ethically and appropriately to facilitate practice outcomes.
   1.6 Use field instruction/supervision and consultation to guide professional judgment and behavior.

2. Student engages diversity and difference in practice.
   2.1 Articulates self-awareness regarding own identity, personal biases, fears and values related to various groups and/or when discussing/planning client work.
   2.2 Communicates understanding the importance of diversity and differences in shaping life experiences.
   2.3 Employs diversity-sensitive practice skills.
   2.4 Presents self as learner and engages clients and constituencies as experts of their own experiences.

3. Student advances human rights and social, economic, and environmental justice.
   3.1 Applies principles of social, economic and environmental justice to advocate for human rights at the individual and systems levels.
   3.2 Engages in practices that advance social, economic and environmental justice within the scope of the agency’s mission.

4. Student engages in practice-informed research and research-informed practice.
   4.1 Applies research findings to inform and improve practice, policy, and service delivery as relevant to placement setting.
4.2 Implements evidence-based interventions.

5. Student engages in policy practice.
   5.1 Identifies social policy at the local, state and federal level that impacts well-being, service delivery and access to social services.
   5.2 Assesses how social welfare and economic policies impact the delivery of and access to social services.
   5.3 Advocates for policies relevant to the client population.

6. Student engages with individuals, families, groups, organizations, and communities
   6.1 Applies theory and knowledge (human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks) to engage with clients and constituencies. (Constituencies include individuals, families, groups, organizations and communities.)
   6.2 Uses empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

7. Student assesses individuals, families, groups, organizations, and communities.
   7.1 Collects and organizes data and applies critical thinking to interpret information from clients and constituencies.
   7.2 Applies theory and knowledge (human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks) in the analysis of assessment data from clients and constituencies.
   7.3 Develops mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies.

8. Student intervenes with individuals, families, groups, organizations, and communities.
   8.1 Selects appropriate intervention strategies based on the assessment, research, values and preferences of clients and constituencies.
   8.2 Implement interventions to achieve practice goals and enhance capacities of clients and constituencies.
   8.3 Use multidisciplinary collaboration as appropriate to support practice.
   8.4 Intervene (negotiate, mediate, and advocate) on behalf of clients and constituents.
   8.5 Facilitates effective transitions and endings which advance mutually agreed-on goals.

9. Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities
   9.1 Selects and uses appropriate methods for evaluation of outcomes.
   9.2 Evaluates (monitors and critically analyzes) interventions and outcomes.
   9.3 Applies evaluation findings to improve practice effectiveness.

FIELD SYLLABUS
The Field Syllabus outlines the Course Objectives and the Competencies of the internship experience at the agency site. As well, the Field Syllabus outlines the field assignments and expectations. See Appendix III.
REQUIRED COURSE ASSIGNMENTS

The Field Education Office requires the following assignments. Satisfactory completion of these assignments is required to receive credit for the field course. Liaisons have discretion to require additional field assignments. Many of these assignment are completed and submitted on the online field database system called “FieldConnect.”

1. **Learning Agreement:** Early in the internship, Students and Field Instructors engage in an assessment of student educational needs, and together develop a Learning Agreement. Faculty Liaisons, if needed, are available to assist in developing the Learning Agreement. The Learning Agreement should be considered as the overall roadmap for the student’s learning experience throughout the year. It should be reviewed regularly during the field instruction hour by the student and Field Instructor, and modified as needed. This will be submitted using the online program, FieldConnect.

2. **Practice Course 140B/C Syllabi:** Students must provide their Field Instructors with a copy of their practice course syllabi and should discuss ways of integrating course material with the field experience. Students must give Field Instructors sufficient advanced notice about any field-related assignments that require Field Instructor participation and/or review.

3. **Field Journal:** The purpose of this assignment is for students to demonstrate the ability to engage in self-reflection and integration of classroom knowledge with field practicum experience. Journals also provide an opportunity for Liaisons to monitor the progress of the placement.

   NOTE: Faculty Liaisons may require additional assignments, but these must be clearly stated in writing and provided to the student at the beginning of the academic year. In addition, Liaisons may require students to meet individually and/or as a group during the semester, outside of practice class. *Students who fail to complete field assignments in a timely manner may receive a “No Credit” for field.*

4. **Mid-Semester Progress Report:** Due halfway in the first field course, the Field Instructor completes this one page evaluation, and reviews it with the student. This is submitted using the online program, FieldConnect.

5. **BSW Student Field Evaluation:** At the beginning of each semester, students provide Field Instructors with a copy of the end-of-semester Field Evaluation, accessed via FieldConnect. The student is responsible for making arrangements in a timely manner for the Field Evaluation to be completed at the end of the semester. The recommended process is for student and Field Instructor to complete their own evaluation form individually, then meet together to discuss the results. While a Task Supervisor won’t have access to FieldConnect, he or she should have input into the student evaluation. Students are encouraged to make copies of their field evaluations for future reference. This is submitted using the online program, FieldConnect.

6. **Evaluation of Field Instructor and Agency:** At the end of the internship, students will complete a survey of their Field Instructor and the Agency. The Field Director reviews each survey and communicates directly with any Field Instructor or agency that is consistently rated poorly.
SUGGESTED COURSE ASSIGNMENTS: PROCESS RECORDINGS

The purpose of this assignment is for students to practice skills of recall and retention of the content of client interviews, and to engage in self-reflection and self-evaluation of their practice. Liaisons may use other formats at their discretion. While the Process Recording is assigned by the Liaison, the Field Instructor should also review and discuss it with the student. Sample Process Recording formats are provided in Appendix IV.

GRADING

Field Education is a year-long course graded on a “Credit/No Credit” basis. A grade is given at the end of each semester. A student may not proceed to the next semester unless they receive “Credit” for the preceding semester. Field Instructors do not assign grades. They evaluate students and provide input into the overall assessment of students’ performance in the field. The Faculty Field Liaison assigns either Credit (CR) or No Credit (NC) at the end of the field course. Grades are largely based on performance in the placement, but are also based on the completion of any field-related assignments (such as field journals) required by the Field Faculty Liaison. Grades are based on the following criteria:

1. Student completes all field assignments (specified above) in a timely fashion,
2. The quality of these assignments,
3. The student’s field evaluation, completed by Field Instructor, and
4. The liaison’s assessment of the student’s professional development relative to the practicum competencies set forth in the SWRK 195A/B Syllabus, and whether or not the student is ready to practice social work at the baccalaureate level.

Students must complete 32 weeks (Regular Semester Program) or a 12-week (2017 Pilot Summer Intensive Field Program) of internship in order to receive credit and a grade for the course regardless of the student’s demonstrated professional qualities and competencies. Exceptions may be made to this policy in extreme circumstances based on the discretion of the Undergrad Field Coordinator or the Field Director.

Occasionally, a Liaison may assign an “Incomplete – I” for the field course. This occurs when a student has not developed the minimum competency expected of a student at the end of that semester, and/or the student has missed several days of field for legitimate reasons, and needs to make up time. In these cases, a plan for completing the required hours and/or improving in the specified competencies will be developed, with a timeline for completion (See Section V-Problem Solving Process, The Performance Improvement Plan). The Faculty Field Liaison, Undergrad Field Coordinator or the Field Director will develop this plan. The student will receive the grade of “CR” (Credit) when this plan is fulfilled.

The Field Instructor and student must post the BSW Student Field Evaluation by the posted due date. Evaluations received after the due date may result in the student receiving a grade of Incomplete.
REPEAT POLICY

Students may receive a “No Credit” for field due to inability to complete the required time commitment, and/or for inability to achieve minimum competence in one or more key competencies. When a student earns a NC, the Faculty Field Liaison may recommend to the Field Director the student be allowed to repeat the course. Permission to repeat the course is governed by the University’s Repeat Policy, and by the Division of Social Work’s Field Problem Solving and Review Process (see Section V).

Failing a Field Course or Practice Course

Field and practice courses are co-requisites and must be taken concurrently. Failing one will stop a student’s progress into the next semester of field and practice. Please see examples below.

Example 1

<table>
<thead>
<tr>
<th>Course</th>
<th>Final Grade</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>140B</td>
<td>C- or lower</td>
<td>Student must repeat 140B the following year and may not proceed to 195B until 140B is passed.</td>
</tr>
<tr>
<td>195A</td>
<td>Credit</td>
<td></td>
</tr>
</tbody>
</table>

Example 2

<table>
<thead>
<tr>
<th>Course</th>
<th>Final Grade</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>140B</td>
<td>C or better</td>
<td>Student must repeat 195A the following year and may not proceed to 140B until 195A is passed.</td>
</tr>
<tr>
<td>195A</td>
<td>No Credit</td>
<td></td>
</tr>
</tbody>
</table>

Work, Volunteer and or Life Experiences Credit

While the BSW program values the employment, volunteer and life experiences of BSW students, academic credits are not offered for such experiences.
SECTION III
ROLE AND RESPONSIBILITIES IN FIELD EDUCATION

THE AGENCY

Agency Qualifications
To qualify as an approved field site, an agency must be recognized by the State of California as a corporate entity. It must have written standard operating policies and procedures, policies and procedures regarding sexual harassment and discrimination, and must have policies and procedures regarding health and safety. In addition, agencies must be administratively and financially sound in order for students to be placed or continue to be placed within it. Agencies wishing to become field sites must submit an Agency Application (http://www.csus.edu/hhs/sw/fieldeducation/FieldForms/Agency_Application.doc) to the Division of Social Work. Upon approval by the Field Director, the agency’s request will be forwarded to the University Procurement Office, which will issue a contract with the agency.

Agency Role
The agency provides a setting in which the internship may occur.

Agency Responsibilities
The Agency is expected to provide each student with the following to ensure the student's learning in the field:

1. A qualified Field Instructor (See below “Field Instructor”) whose responsibility is the teaching of the student. The Field Instructor must have a social work degree (BSW or MSW) from an accredited university.

2. A sufficient number and variety of assignments to support the progression of student learning. Students must be involved in practice activities within three weeks of the start of the placement (includes shadowing, investigating community resources, watching relevant films, etc.).

3. A thorough orientation at the beginning of the internship, to include:
   a. A review of the agency’s mission, policies and procedures, various programs or departments, and any collaboration partnerships in the community; and
   b. A review of risk management policies and procedures (e.g., office and community safety, harassment, transporting of clients, medical precautions, suicide prevention policies, etc.
   c. A review of the client population and the associated community and its resources.

4. Adequate workspace and access to telephones, computers, records, data bases, etc. to fulfill the requirements of the agency and Division.

5. Opportunities for the Field Instructor to observe the student. See Section IV under “Instructional Methods.”

6. Reimbursement for expenses the student pays for when involved in rendering services (e.g., mileage reimbursement for agency-related travel).
7. Adequate insurance coverage for students as stipulated in the University contract with the agency, particularly for students who are expected to use personal vehicles for agency purposes (The Division discourage the use of personal vehicles to conduct agency business, unless the agency fully insures the student).

8. Access to staff, committee, and seminar meetings when appropriate.

9. Use of selected agency records (appropriately disguised to ensure client and agency confidentiality) for class assignments.

10. Use of agency consultation resources when appropriate.

11. Release time/support for the Field Instructor so that s/he can meet the Division’s criteria for working with a student (see Responsibilities of the Field Instructor).

12. EMPLOYMENT-BASED FIELD INTERNSHIPS: These agencies agree to consider the student’s status as an intern paramount to the student’s employment status during the time of the internship. For more information, see “Employment-Based Field Internships” on Division website: [http://www.csus.edu/hhs/sw/fieldeducation/basw-forms.html](http://www.csus.edu/hhs/sw/fieldeducation/basw-forms.html)

13. AGENCIES WITHOUT A DEGREEED SOCIAL WORKER ON STAFF: These agencies must provide the student a Task Supervisor. A Task Supervisor is a regular staff member who is responsible for the day-to-day assignments of the student and the observation and assessment of the skills portion of student learning.

THE FIELD INSTRUCTOR

Field Instructors are qualified staff members of an agency who possess a Master's or Bachelors of Social Work Degree and who, with the approval of agency administrators and the Division, are willing and able educators of social work students. Field Instructors are considered a kind of faculty member of the Division of Social Work making their responsibility unique and demanding. Field Instructors who volunteer or contract with an agency to provide field instruction are considered “off-site Field Instructors.”

Field Instructor Qualifications

1. Master’s or Bachelor’s social work degree from a Council on Social Work Education (CSWE) accredited social work program (MSW preferred).

2. Minimum of two years, relevant full-time, supervised post-degree experience.

3. There may be occasion when a Field Instructor has not had a minimum of two years, relevant full-time, supervised post-degree experience. The Field Director and/or Undergraduate Field Coordinator approves this modification. Modifications are based upon pre-degree experience, agency opportunities, agency staff, and/or the presence of an experienced Task Supervisor.

4. Sufficient term of employment at the agency to ensure familiarity with agency policies and procedures and availability to meet student's needs.

5. Agreement to act as Field Instructor on a continuing basis during the academic year or full placement period and to participate in the required 6-hour “Field Instructor Training” required of all Field Instructor and to engage in 3-hour “Advanced Field Instructor Trainings” every 3 years thereafter.

6. If the Field Instructor and the student have had a pre-existing professional or social relationship, this information should be shared with the Field Education faculty so that the appropriateness of the placement can be determined.
Field Instructor Role
Field Instructors carry out three different roles relative to each student: they are educators, teachers, and gatekeepers.

1. Educator: As an “educator,” they guide and assess the overall professional development of the student.

2. Teacher: As a “teacher,” they facilitate “learning opportunities” for students and model for and observe the student and provide meaningful feedback.

3. Gatekeeper: As a “gatekeeper,” they assist the Field Faculty in assessing whether or not the student is appropriate for the profession – demonstrates the personal/professional capacities/behaviors requisite of professional social workers.

Field Instructor Responsibilities

The Field Instructor must:

1. Have a Bachelor or Masters (preferred) social work degree from a CSWE accredited school of social work; and two years of experience post degree.

2. In the early stages of the internship, ensure student gets on average three hours of training per week (Regular Semester Program) and on average 4-6 hours of training per week (2017 Pilot Summer Intensive Program) that includes providing one hour of formal face to face regularly scheduled supervision each week. The instruction hour can be individual or group. If the agency chooses weekly group field instruction, this must be coupled with biweekly individual field instruction. Assessment materials shall be prepared by the student and reviewed by the field instructor (i.e., process recordings, audio/videotapes, case presentation, projects, etc.).

3. Provide time for reading student material, holding informal conferences and meetings and consulting with Faculty Field Liaison.

4. Complete the student’s Learning Agreement, the Mid-Semester Progress Report, and the “Student Evaluation.” These documents are completed and submitted using the online program, FieldConnect.

5. Provide ongoing assessment and feedback to students regarding the Learning Agreement Competencies.

6. If new, attend the Field Instructor Orientation (6 hours) to meet the Division’s accreditation requirements.

7. If ongoing, attend Advanced Field Instructor Training (3 hours) every three years to meet the Division’s accreditation requirements.

8. Engage in ongoing collaboration with the Faculty Field Liaison to enhance the student’s educational experience in the internship.

9. Be familiar with and uphold the NASW Code of Ethics, identify with the social work profession, demonstrate a strong commitment to social work values and adhere to the laws that regulate social work practice.

10. Identify individualized learning opportunities (clients, projects, and tasks) within and outside the agency setting in line with the needs and curriculum and goals of the student.

11. Identify student problems and work with the Faculty Field Liaison on how to address the problems. The student must be informed and involved in the Performance Improvement Plan.

12. Off-Site Field Instructors: Must meet with the student weekly for one hour. In addition, the Field Instructor must communicate with the Task Supervisor to obtain feedback on the student’s progress in the area of skill development and must review the student’s case.
notes, process recordings (if assigned), etc. Lastly, the off-site Field Instructor is responsible for completing the student’s Learning Agreement, Mid-Semester Progress Report and the end-of-the-semester Student Evaluation.

13. Task Supervisors: Is a regular agency staff member who is responsible for the day-to-day assignments of the student and the observation and assessment of the skills portion of student learning. It is expected that the Task Supervisor will model skills and observe the student in his/her daily assignments, meet with the Faculty Liaison as appropriate, and provide relevant feedback to the Field Instructor for completing the Mid-Semester Progress Report and the end-of-the-semester Student Evaluation.

Off-site field instructors
Field Instructors who are off-site are responsible for insuring the responsibilities noted above are carried out in whole through both their own efforts as well as those of the Task Supervisor (see below). The off-site Field Instructor must meet with the student weekly for one hour. The focus of these meetings is social work content—social work perspective, values, ethics, practice theories and theories for practice. The reference point for discussion should be the Learning Agreement. These hours constitute the “instructional hour.” In addition to the instructional hour, the off-site Field Instructor must communicate with the Task Supervisor to obtain feedback on the student’s progress in the area of skill development and must review the student’s daily tasks. Lastly, the off-site Field Instructor is responsible for completing the student’s evaluation in concert with the Task Supervisor.

Task supervisors
A Task Supervisor is a regular staff member who is responsible for the day-to-day assignments of the student and the observation and assessment of the skills portion of student learning. It is recommended the Field Instructor and Task Supervisor meet prior to the start of the internship to delineate roles and responsibilities so that the student is a clear information and guidance. It is expected that the Task Supervisor will model skills and observe the student in his/her daily assignments, meet with the Faculty Liaison as appropriate, and provide relevant feedback to both the student and the Field Instructor. The Task Supervisor does not need to have a social work degree. It is highly encouraged that the Task Supervisor also attend the Field Instructor Trainings.
THE STUDENT

The student’s primary obligation is to his/her own learning and professional development through the provision of social work services in the field setting in accordance with the social work code of ethics and the agency’s policies and procedures.

Students are expected to adhere to their assigned agency's personnel practices, policies, and procedures. Failure to do so may result in termination from the agency and a “NC” in field. Students are expected to adhere to the same workday hours as the professional social work staff in the agencies. Time lost in absences need to be made up by the student.

The field experience comprises the task and activities agreed to by the Field Instructor and his/her student as documented in the Learning Agreement and the Field Course Assignments required of all students enrolled in field (see 195A/B Syllabus). The tasks and activities agreed to by the Field Instructor and student are to be documented in the Learning Agreement.

Students will meet with their Faculty Liaison during the first class meeting of their 140B and 140C practice courses to review field course assignments.

It is the responsibility of each student to be at the first class meeting in order to meet with his or her Faculty Liaison. It is recommended that students not in attendance at the first practice class session schedule an appointment and meet with their Faculty Field Liaison prior to starting their field placement.

If students have any questions about or problems with their field placements, these should be discussed with the Faculty Field Liaison before they are brought to the Field Director and/or Undergraduate Field Coordinator. If a problem or question arises during the time when faculty are on academic holiday, the student must contact the Field Director.

Absence from Field

Protracted absences (more than two consecutive days) must be addressed by the Field Instructor and Faculty Field Liaison. When disruption of the field experience, due to repeated or protracted absence, is determined to interfere with student learning and/or services to clients, a decision regarding the student's continuation in the field placement will be made in accordance with the Problem Resolution process outlined in this guide. Requests for time off for religious observance and professional conferences should be assessed on an individual basis. Arrangements to make up time should be made in accordance with the agency’s needs and the student's learning needs.

Disclosure of Student Intern Status

In accordance with federal and state law, the Division of Social Work requires social work students identify themselves as student interns to clients either verbally or through the use of name tags except in emergency situations where it is clinically contraindicated as determined by student and Field Instructor or other supervisor. “Student Intern” status should be clearly designated in signing notes in records/chart and all other documents produced by student trainees for or on behalf of the field agency.

Student Rights and Privacy

The Division of Social Work requires that students understand informed consent and waive specific rights to privacy, in relation to their education, field conduct, performance, and personal information. Outlined below are the specific policies regarding student rights and instances in which the waiving of rights is deemed necessary.
Privacy/Confidentiality of Student Performance
Student placement and performance/conduct in an agency is neither private nor confidential, even if the student is engaged in an employment-base field internship wherein the student intern is also an employee of the field agency. Field Instructors are considered an essential part of the field team and thereby entitled to receive and share information regarding a student among and between appropriate field faculty members pertinent to the placement, from the time of the placement interview through termination of the field placement. Student conduct during the placement process through the entire placement period is a matter of educational concern to the faculty of the Division of Social Work.

Family Educational Rights and Privacy Act (FERPA)
The federal Family Educational Rights and Privacy Act of 1974, as amended, seeks to guarantee both a student’s right of access to education records, financial aid records and financial records, and the confidentiality of student information. Institutions may not disclose information contained in education record without the student’s written consent except under certain conditions. A student’s records may be released to parents, guardians or other third parties by providing a written authorization or consent.

Students are asked to sign the following statement as part of their Field Application:

“I hereby give permission to Sacramento State, Division of Social Work, Field Education Program, and its faculty, to verify any and all information contained within this application. This can include contacting former employers, field practicum agencies, and/or field instructors, reviewing school records, etc. I understand that should any information affect my professional student status, and/or internship role and thus the field practicum experience, the Division of Social Work shall be authorized to assess and discuss the information with the appropriate parties. In doing so, I consent to Sacramento State the release of the above referenced records within its possession and/or control that may constitute educational records under the FERPA and by so consenting waive any right to privacy I may have in said records under state and/or federal law. I also understand that I am entitled to a copy of any records released by Sacramento State pursuant to this consent. I further authorize any former employers, field practicum agencies, field instructors, and/or current or prior educational institutions I have attended to release the records identified herein.”

Maintaining Privacy and Confidentiality of Clients, Agency, and/or Agency Personnel
NASW code of Ethics: 1.07 Privacy and Confidentiality
(c) Social workers should protect the confidentiality of all information obtained in the course of professional service, except for compelling professional reasons. The general expectation that social workers will keep information confidential does not apply when disclosure is necessary to prevent serious, foreseeable, and imminent harm to a client or other identifiable person. In all instances, social workers should disclose the least amount of confidential information necessary to achieve the desired purpose; only information that is directly relevant to the purpose for which the disclosure is made should be revealed.

Disguise of Confidential Client Material
When students use case material from their agency in the context of their academic coursework (e.g. Process Recordings, Case Records, Meeting Minutes, Group Recordings) they are required to do the following:

1. Change client's names (first and last) and initials;
2. Delete any reference to agency name and/or worker names;
3. Delete any reference to address or any information specifying geographical area, such as street names, businesses, or hospitals;
4. Delete any information that would enable identification of clients, agencies, or agency personnel.

THE FACULTY FIELD LIAISON

The Faculty Field Liaison is the university-based field educator who oversees and monitors the student’s placement.

Faculty Field Liaison Role

The Faculty Field Liaison’s role is threefold:

1. To assist and assess students in their professional growth and development as they progress through the field education curriculum
2. To assist Field Instructors in the development of appropriate learning opportunities or support them in their role as a Field Instructor; and
3. To mediate or resolve problems affecting a student’s progress in the field.

Each student is assigned a Faculty Field Liaison. In most instances the student’s liaison is also the student’s 140B/C practice course instructor and generally, all practice course instructors are full time faculty members.

Field Faculty Liaison Responsibilities

The Field Faculty Liaison:

1. Serves as the link between Division and Agency;
2. Consults with the student and Field Instructor about assignments, Learning Agreement, field evaluation, etc.;
3. Serves as the student's advocate to ensure that the Division's expectations of the agency are being met;
4. Serves as troubleshooter, problem-solver and mediator in the event a problem in the field placement experience is identified (whether the problem rests with the student, agency, or Field Instructor);
5. When needed, develops a student’s “Performance Improvement Plan;”
6. Reviews/approves and provides feedback to the student on each of the required field assignments;
7. Meets with each student on a regular basis individually or in group (at least bi-weekly) to ascertain the student’s progress towards his/her professional development and to assess the quality of the experience based on Liaison/Student discussion about the tasks/activities or cases in which the student is engaged;
8. Contacts Field Instructors in the first few weeks of the Fall semester to ensure agency orientations are underway and to verify contact information (phone numbers, e-mail addresses, etc.);
9. Conducts a site visit each semester (in person or through video conferencing). The site visit must include the student and the Field Instructor;
   - Fall Site Visit: ensures the viability of the placement experience once it begins and establishes a working relationship with the Field Instructor
• Spring Site Visit: Reviews (adds to or modifies) the Learning Agreement and ensures the student is able to work towards all competencies

10. Must be available to both the student and the Field Instructor; and
11. Assigns the student’s grades for 195A/B based on course grading policy.
SECTION IV
INSTRUCTIONAL METHODS AND RESOURCES
FOR FIELD INSTRUCTORS

INSTRUCTIONAL RESPONSIBILITIES OF THE FIELD INSTRUCTOR
The Field Instructor plays a key role in the professional education of the social work student. The Field Instructor, who has the closest and most continuous relationship with the student, serves as both a role model and a teacher.

The student/Field Instructor relationship provides the context for significant growth and learning for the student. Over the course of the placement the Field Instructor may be called upon to address challenging or sensitive issues such as the student's inability to separate personal/professional issues, holding the student accountable for meeting agency and Division requirements and accommodating the student's particular learning needs.

An early focus of field instruction should be on the educational assessment (the knowledge, skills, strengths and limitations) of the student. It is based on a review of previous education and work history, an evaluation of learning style and learning phase, an understanding of the student's professional goals, and identification of the strengths and challenges with which the student approaches the identified learning tasks. Adult education theory, learning style theory, learning stages and developmental theory all inform the educational assessment.

It is important for the Field Instructor to be aware of his/her own characteristic learning/teaching style, operating/communication style, knowledge and skills, strengths and weaknesses; as these will influence transactions with the student. The Field Instructor may be called upon to develop new approaches to the teaching tasks that meet the learning needs of individual students.

If the Field Instructor and student have had a pre-existing professional or social relationship, this information should be shared with the Field Director, so that the appropriateness of the placement can be determined.

THE LEARNING AGREEMENT
Adult education theory emphasizes the shared responsibility between the instructor and the learner for the quality and content of the learning – teaching transactions. Building on this notion, it is a Division policy that each Field Instructor and student jointly develop a written educational contract (the Learning Agreement) that defines the work they will be doing together. The Learning Agreement is available on the FieldConnect. It should be completed by the Field Instructor and student collaboratively early in the course (see Field Calendar for due dates). A digitally signed copy should be completed and submitted to the Faculty Field Liaison for review and approval.
FIVE INSTRUCTIONAL METHODS: IMPORTANCE OF OBSERVING THE INTERN AND GIVING DIRECT FEEDBACK

The Division of Social Work encourages the Field Instructor to directly observe the intern when the intern is carrying out required activities, roles and responsibilities. It is recommended that the Field Instructor spend time and effort in explaining the reasons for the direct observation. In other words, the intern is being observed because this is an effective way to increase an intern’s competency. If this instructional method is approached in a thorough and planned manner, it can be rewarding for both the intern and client.

If the intern is highly anxious about being observed, highlight observed strengths and improvements, praise the student for tolerating the experience and ask them to self-evaluate, limiting your critique until the intern grows more comfortable with the process whenever possible. Once interns get used to engaging in observational methods, they tend to feel better seen, understood, supported and helped by the Field Instructor.

Five Observational Methods are described in the table below:

1. Intern Shadowing Instructor Session
The intern observes Field Instructor or a seasoned worker in a session. After the session, the intern outlines what was noticed about the session. The focus is not on what the intern “liked” about the Field Instructor did in the session. More so, the intern speculates on what the worker was attempting to accomplish, how the client participated in the session, and other deeper level considerations about the session.

2. Intern Participating in Instructor Session
The intern observes and also participates in the session with a Field Instructor or a seasoned worker. The client is asked permission with the idea that the client is helping train the intern. During or at the end of the session, the worker invites the intern to contribute to the session.

3. Live Observation of Intern
Live observation of the intern can occur behind a one-way mirror or by the instructor being in the room with the intern and client. The observation can be strictly that or it can be interactive with the instructor communicating directly to the intern and/or client.

In the simplest form, the instructor introduces themselves at the beginning and makes a few brief comments at the end; in maximum form, the instructor and intern conduct a session together. To introduce the intern to this, the field instructor might begin by inviting the intern to “visit” one of the instructor’s sessions to observe and comment.

A handout on “Live Observations” is available in the Appendix V.

4. Written Process Recordings
There are many different formats for a Written Process Recording, but in all, the intern records the interaction or dialogue between the client and the intern. Also included are the intern’s real time thoughts and emotions, as well as the client’s behavior and perceived emotions.

Small System: Interns most often record what is remembered about face-to-face sessions with clients. But interns can also record telephone conversations with clients, or contacts with family members, colleagues, or professionals in other settings.

Written recording teaches the intern to listen and remember, and is a good indicator of the intern's perceptions of his/her experience and interventions.

Large System: The student’s written account should include all of the above but the focus is on the group dynamic and the group roles and skills (or lack thereof) evidenced (the focus is not on the interaction between student and the client). Interns and Field Instructors may find agendas, work plans, and minutes of meetings useful in the student’s effort to record the dynamics involved in large system practice. Ultimately, however, the large system process recording should focus the student's attention on group dynamics, large system interventions, use of self, and group skills development.

Recordings have a number of purposes including: 1) keeping the Field Instructor informed of what the intern is doing; 2) encouraging the intern to reflect on and conceptualize from practice; 3) encouraging the intern to plan ahead; 4) encouraging the intern to sort and remember important information about his/her practice; 5) providing a framework for the “instructional hour”, individual conferences; and 6) serving as a tool for evaluating the intern's progress over time.

It is recommended that the intern write 2 process recordings per year: Fall Semester: Small system (i.e., 1x1 client session), and Spring Semester: Large system (i.e., client group, staff meeting, board meeting).

Examples of social work process recordings are easy to find on the internet. Example of small system and large system are included in the Appendix IV.

5. Audio/Visual Recording

Audio and video recordings may be used in place of or in addition to written process recordings. An intern records an entire session and then presents a sample of the session to the Field Instructor. The Field Instructor provides constructive feedback and asks the intern to reflect on his/her experience of the client work.

Agency policy dictates this process since agency consent forms are needed. Many field sites regularly use audio/visual recordings and have offered to serve as a resource to help other agencies begin this practice.

ASSIGNMENT TIMETABLE AND LOAD

The Field Education program expects students to be provided a thorough orientation to the agency before becoming involved in direct practice activities or indirect practice actions. However, students are expected to become involved in client focused practice within the first three weeks of the internship. Early work includes “shadowing” with clients, groups, committees, or projects that allows students to begin the process of integrating the learning from class and field. Field Instructors are advised to review the 140B/C practice course syllabi of their students to ensure congruency between field assignments and practice course assignments. Additionally, a review of the practice course syllabus will assist the Field Instructor to plan the field assignments in a “building block” format that is congruent with the “progression of learning” perspective built into all practice courses.
“Processing” is defined as time to reflect upon what the student is engaged in (seeing a client, participating in a staff or committee meeting) and what the student has learned from that engagement — what is being learned by “doing”. It is recommended students be provided time for processing each day they are in field (approximately 10-15 minutes after engaging in some major activity—). Processing time includes the instructional hour, time to do written process recordings, self-reflection, and time to write the required weekly Field Journal entries.

Given the above, in general, BSW students are expected to work with their Field Instructor’s less complex cases and to carry a manageable workload. Any questions regarding sufficiency of assignment load should be addressed to the Faculty Field Liaison.

**ASSESSMENT OF STUDENT**

Assessment of the student’s performance as it relates to the CSWE competencies should be an ongoing process. The student and Field Instructor should regularly give feedback to each other regarding the field education experience. Students and Field Instructors should discuss any concerns as they emerge. Students should not be surprised by the ratings or the feedback on their final evaluation.

The two required evaluations, completed and submitted in FieldConnect, include:

1. Mid-Semester Progress Report: Field Instructors are responsible for completing a mid-semester progress report due midway

2. Student Field Evaluation: Field Instructors are responsible for completing the end-of-the-course Student Field Evaluation.
SECTION V
FIELD PROBLEM-SOLVING AND REVIEW PROCESS

Students have a right to placements that:

- Offer an environment in which students can develop the social work competencies outlined in the student’s Learning Agreement;
- Offer an environment free from unlawful discrimination, harassment, and retaliation;
- Provide a safe working environment

HARRASMENT, DISCRIMINATION OR RETALIATION COMPLAINTS

If Student has a Complaint
If a student has a complaint of unlawful harassment, discrimination, or retaliation, including at a field placement agency, they should contact the CSUS Office for Employment Equity. The applicable CSU policy for complaints of this nature is Executive Order 1074. (http://www.calstate.edu/eo/EO-1074.html). Students making such complaints are strongly encouraged to notify their Faculty Field Liaison and the Field Director. Likewise, EO 1074 requires that except in the case of a privilege under California law, any member of the University community who knows of, or has reason to know of, allegations or acts that violate this policy, shall promptly inform the Office for Employment Equity at (916) 278-3522, or the two individuals listed above, so that prompt remedial action may be taken. For complaints of unsafe working conditions in field placements, please notify either the Field Instructor or the Faculty Field Liaison as soon as possible.

The University takes seriously any claim of discrimination, harassment or retaliation. The specific facts of a complaint will drive both the steps for handling it and the ultimate outcome. For these reasons, the outcome can never be determined at the outset. If a harassment, discrimination, or retaliation complaint warrants investigation, such an investigation will be carried out under the oversight of the Title IX Coordinator and consistent with Executive Order 1074. During any investigation, the university may implement interim measures in order to maintain a safe and non-discriminatory educational environment.

The University has authority to pursue student claims against those identified in the Executive Order, but it has limited control over the actions an outside agency might take in response to a complaint that is determined to have merit. The student will not be required to continue at an agency which they believe has not satisfactorily resolved a valid complaint of harassment, discrimination, or retaliation. The safety and well-being of the student is paramount.

If Student Accused
In cases where a student is accused of discrimination, harassment or retaliation in a placement agency, the Field Director or the Undergraduate Field Coordinator will notify The University Office of Employment Equity.
THE PROBLEM-SOLVING PROCESS
If the student identifies a problem in the field placement which does not involve discrimination, harassment or retaliation, then they should bring it to the attention of the Field Instructor as soon as possible. A student may consult with the Faculty Field Liaison first for guidance on how to approach the Field Instructor.

A Field Instructor may also identify a problem. In this case, the Field Instructor should discuss the concern directly with the student, and attempt to work out a plan for improvement. The Field Instructor may consult with the Faculty Field Liaison in advance if needed. The Field Instructor will notify the Faculty Field Liaison of the improvement plan.

If the student and Field Instructor are not able to develop a workable solution, the student (or Field Instructor) may ask the Faculty Field Liaison to intervene directly. This may include a telephone call and/or site visit by the Faculty Field Liaison to the agency. If the Liaison is able to help the student and Field Instructor develop a plan for addressing the identified problem, the student remains in the placement and the Liaison monitors the plan to ensure the problems are successfully addressed. There should be a reasonable timeframe identified. The plan and timeframe should be documented by the Field Instructor, student and/or Liaison.

If a solution cannot be reached, and/or if the plan does not succeed, the Field Instructor and/or Faculty Field Liaison, after consultation with the Field Director (or when appropriate the Undergraduate Field Coordinator) may decide to terminate the placement. The termination may occur with or without the agreement of the student. A student may not terminate a placement without permission of their Faculty Field Liaison, the Undergraduate Field Coordinator and/or the Field Director.

A student may not terminate a placement without permission of their Faculty Field Liaison, the Undergraduate Field Coordinator and/or the Field Director.

THE PERFORMANCE IMPROVEMENT PLAN
The Performance Improvement Plan (PIP) is a performance contract that is used when a student’s performance falls below the expected MSWI or MSWII competency. The PIP identifies the student’s current performance problems and describes the expected changes in a set timeframe for improvement. The faculty liaison will review the contract with student biweekly or as needed to monitor progress. Insufficient progress towards the expectations listed in the PIP may result in further action. This action could include a “Field Professional Review” or a Grade of No Credit (NC).

WHEN A PLACEMENT IS TERMINATED
When a placement is terminated, the Faculty Field Liaison will consult with the Field Director and, when appropriate, the Undergraduate Field Coordinator, about the next step. The following are possible scenarios:

1. The reason for termination is not based on student performance: the student will be referred to another placement. The student will be credited for the time spent in the first placement, but may receive an Incomplete for that semester until the new Field Instructor has enough experience with the student to complete an evaluation.
2. **The reason for termination is based on excessive but legitimate absences, and there are no other performance issues involved:** If the student’s circumstances do not allow for consistent attendance in a placement, the student will receive a “No Credit” for field but will be allowed to repeat the course the next time it is offered. In this case, the student will need to withdraw from the practice class as well. Please see Office of Academic Affairs policy on dropping a class. [http://www.csus.edu/umanual/findpolicy.html#D](http://www.csus.edu/umanual/findpolicy.html#D)

The Faculty Field Liaison may assign an incomplete grade for field when there is evidence that the student will be able to resume consistent attendance within a reasonable amount of time. The student will be required to make up all missed time. In that case, a new placement referral will be made, and the student will not be required to withdraw from the practice class.

3. **The reason for termination is due primarily to student performance issues:** The Faculty Field Liaison, the Field Director, and when appropriate the Undergraduate Field Coordinator will review the student’s situation. The review will look for evidence of the following:

- The degree of seriousness of the performance issues. Examples of serious performance issues include:
  - Behaviors that place the agency, co-workers or clients in potential harm.
  - Behaviors that contravene the NASW Code of Ethics.
  - Discrimination, harassment or retaliation behaviors. NOTE: In cases where a student is accused of discrimination, harassment or retaliation in a placement agency, the University Office of Employment Equity will be notified.
  - Behaviors that indicate significant emotional, psychological, physical or cognitive impairment that interferes with the student’s ability to perform the tasks of the placement and thus develop the competencies of the field course. NOTE: If impairments are related to a student’s previously documented disability, the Field Education Office will consult with the Office of Services for Students with Disabilities to determine if reasonable accommodations can be made to allow a student to continue in field.
  - Failure to follow agency protocol in areas such as mandated reporting, documentation, communication with agency constituencies and clients.
  - Failure to obtain or follow supervision.
  - Insufficient baseline level of competence.
  - Non-adherence to the Division of Social Work’s Student Standards.
  - Non-adherence to the University’s Student Code of Conduct. NOTE: If there is evidence that the student has violated the University’s Student Code of Conduct, the case will be referred to the Student Conduct Officer.
  - The sufficiency of training and supervision provided to the student by the agency.
  - A low level of the student’s self-awareness and ability to take constructive feedback, and the student’s commitment to improve.
  - Whether the agency and student followed the problem-solving process, and whether the student evidenced an effort to improve performance prior to termination. The student’s history of problem behaviors in previous placements field and the field placement process related to program competencies and the Division of Social Work Student Standards.

If, based on the above criteria, the Field Director and/or Undergraduate Field Coordinator and Faculty Field Liaison determine, in their professional judgment, the performance problems appear
amenable to being addressed in another placement in the current semester, the student will be referred to another placement and will be able to continue in both the field and practice course. A performance contract will be developed identifying the competencies that need to improve, and a timeframe developed for improvement. The student may receive an Incomplete for field until the new field instructor can evaluate the student. The student may be required to extend his or her time in field. Re-placement is not guaranteed. The student must successfully interview for a new placement, with a maximum of three interview opportunities.

THE FIELD PROFESSIONAL REVIEW COMMITTEE (FPRC)

The field faculty members have a dual responsibility: to the student’s educational progress and to the clients of the social work profession. The well-being of clients is a paramount social work value. In some cases, the Field Director, Faculty Field Liaison and the Undergraduate Field Coordinator may have concerns about the student’s readiness for field education at this time, based on the criteria listed above. In these cases, the Field Director will convene the Field Professional Review Committee (FPRC) meeting.

The Field Professional Review Committee will consist of the following:

- Field Director
- Undergraduate Field Coordinator
- BSW Program Director
- The student’s Faculty Field Liaison
- The student’s practice professor, when different from the Faculty Field Liaison
- One other member of the Field Committee (optional)

FIELD PROFESSIONAL REVIEW COMMITTEE (FPRC) PROCESS

1. The Field Director will convene the Committee by notifying the members via email a minimum of 5 working days before the FPRC meeting. The Field Director will notify the student by email of the meeting within a minimum of 5 working days before the FPRC meeting. The student will be informed in this e-mail of (1) the meeting’s purpose, (2) concerns about the specific field competencies, and/or rule/policy violation (e.g., NASW Code of Ethics, Division of Social Work Student Standards), (3) the factual basis for the competency concerns and/or violation; (4) any documents/information relied on by decision makers that raised concerns about the student’s readiness for field; (5) the option to bring any witnesses who have first-hand knowledge of the circumstances; (6) the student’s option to bring someone to the meeting as support; and (7) the range of possible outcomes of the FPRC meeting.

Relevant information about the student’s past field performance (if applicable) both positive and negative, may be included.

2. If the student chooses to bring a support person, the student must advise the Field Director not later than one day before the FPRC meeting of the name of the person the student is bringing. The support person will be there for support only: the support person may not address the committee or speak on behalf of the student. If the student’s support person does not adhere to their role, the FPRC may ask the person to leave the meeting.

3. If the student chooses to bring witnesses having direct, first-hand knowledge of the field situation, the student must advise the Field Director not later than one day before the FPRC meeting the names(s) of any witness(es) the student is bringing.
4. During the meeting, Committee members will hear information relating to the student’s termination from field. This may include information gathered by Committee members, as well as written information submitted by knowledgeable persons (e.g., Field Instructor, task supervisor.) The Committee may also hear information about the student’s behavior in previous placements or the placement process, as reported by previous field instructors, task supervisors and liaison, the Field Director and/or Undergraduate Field Coordinator, and/or documented in field evaluations, that may illustrate a pattern of behavior consistent with the current problems in field. Concerns relating to past field performance must have been communicated to the student at the time the concern was first recognized. Information also will be presented about the student’s demonstrated strengths in field, including past placements. The student will be given the opportunity to address the Committee with information about the matter, and may respond to any information provided by the Committee members.

5. After all information is presented, the student and any other non-Committee members present will be excused, and the Committee will deliberate on whether to allow the student to be referred to another placement during the current semester. If not referred to another placement, the Committee may decide one of the following:
   i. The student will receive a “No Credit” for field for the semester. They will be notified via email as to what competencies need to be improved before re-applying for field the following year.
   ii. The student will receive a “No Credit” for field for the semester. If the Committee has strong reservations about the student’s overall appropriateness for field education, the Committee will notify the student via email that the student is not eligible for another field placement, and the matter will be referred to Director of the Division of Social Work.

If the Field Professional Review Committee determines the student should be given a “No Credit” for field, the student also will be required to withdraw from the corresponding practice class, regardless of how well the student may be doing in that class or how late in the semester it is.

APPEAL PROCESS FOR THE FPRC DECISION

A student may appeal the Field Professional Review Committee’s decision to not refer them to another placement during the current semester by requesting that the Director of the Division of Social Work review the decision of the Field Review Committee. The director will review the FPRC’s process only and will not consider new information that was not presented during the FPRC meeting. If the student is not satisfied with the Director of the Division’s decision, they may appeal to the Dean of the College of Health and Human Services.

On the rare occasion the Committee communicates strong reservations to the Division Director that the student should not be referred to a field placement now nor invited to re-apply for field in the future, the Director shall initiate the Division’s Level II Student Review.
SECTION VI
GENERAL POLICIES OF FIELD EDUCATION

PLACEMENT PROCESS AND PROCEDURES

The Undergraduate Field Coordinator is responsible for arranging the field placements of all students. Students should not contact an agency directly without approval from the Field Director or Undergraduate Field Coordinator. Agencies may not arrange placements with students without the student going through the formal placement process as outlined below.

The BSW placement process begins in the spring semester preceding the placement year. The following outlines the placement steps.

<table>
<thead>
<tr>
<th>PLACEMENT PROCESS STEPS</th>
<th>TIME-FRAME</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Regular Semester Program</td>
</tr>
<tr>
<td>1. Students attend the BSW First Field Orientation</td>
<td>Early February</td>
</tr>
<tr>
<td>2. Students familiarize themselves with field agencies. A list of the available agencies is sent to the students. Students are encouraged to become aware of the types of agencies available in preparation for the Field Faire.</td>
<td>February</td>
</tr>
<tr>
<td>3. Students attend the Field Faire. The Field Faire is a gathering of over 100 agencies providing placements for social work students. Representatives talk with students about their placements and what qualifications they expect in their students. Students do not sign up for placements at the Field Faire. It is simply a chance to get information about placements. Attendance at Field Faire is mandatory.</td>
<td>Late February</td>
</tr>
<tr>
<td>4. Students attend the Interviewing 101 Workshop</td>
<td>March</td>
</tr>
<tr>
<td>Attendance at Field Faire is recommended. To prepare students for interviewing with a prospective agency, :</td>

</tr>
<tr>
<td>• Interviewing etiquette</td>
<td></td>
</tr>
<tr>
<td>5. Students complete and submit the Field Application.</td>
<td>March</td>
</tr>
<tr>
<td>6. Field faculty review field applications and make tentative placement assignments. The Undergraduate Field Coordinator reviews field applications and makes a tentative referral for a field placement. The field agency is notified that the student has been referred.</td>
<td>March</td>
</tr>
<tr>
<td>7. Students receive referrals and contact agencies for interviews. Students call the contact person listed on the Student Assignment/Response Form and set up an interview. The interview is a chance for the student and the agency to determine whether the placement is a good “fit. At the interview, students give the interviewer the Agency Response Form, on which the interviewer will indicate whether or not the student is accepted for the placement.</td>
<td>March/April</td>
</tr>
</tbody>
</table>
8. **Students Accept/Decline Placement.** After the interview, students complete the *Student Response Form,* and return it to the Field Education Office. If student denies placement, he or she must notify and meet with the Undergraduate Field Coordinator to discuss an alternative referral. Students are eligible for no more than three referrals.

<table>
<thead>
<tr>
<th>After Interview</th>
<th>After Interview</th>
</tr>
</thead>
</table>

9. **Students check in with the placement.** Students contact their placements to ensure the placement is still viable, and to verify the start date. During the summer it may happen that some agencies can no longer provide placements. In such cases, the student will be referred to another placement.

<table>
<thead>
<tr>
<th>Early August</th>
<th>Early May</th>
</tr>
</thead>
</table>

10. **Students attend the Second BSW Field Orientation.** This is mandatory for all students entering field. Important policies and procedures relating to placement are presented.

<table>
<thead>
<tr>
<th>First week of Fall semester</th>
<th>Early May</th>
</tr>
</thead>
</table>

Students who are not in good academic standing will not be allowed to proceed into placement. Students with "I" grades may not proceed into placement without permission from the BSW Program Director and the Field Director. Students who have demonstrated serious unprofessional behavior at any point prior to the placement may not be allowed to proceed into placement.

If at any time after the student has been assigned to the agency, but before placement begins, the agency or the student raises questions regarding the placement, the situation is reviewed by the Field Director and the parties involved. The Field faculty will re-place the student in a more appropriate setting, if necessary. When the initiation of the field placement is delayed for whatever reason, it may be necessary for the student to extend the placement beyond the normal ending date to accommodate the agency's need and/or to meet the practicum learning objectives.

**UNSUCCESSFUL PLACEMENT INTERVIEWS**

While the Division attempts to place all students in accordance with the Division's placement procedures, it does not guarantee all students will be successful in the placement interview. Students who are denied a placement by three different agencies, or who refuse to accept three different agencies, or a combination thereof, will meet with the Field Director and Undergraduate Program Coordinator. The possible outcomes of such a meeting are as follows:

1. Student may be asked to work or volunteer at a human service agency to gain more experience and maturity; or

2. Student may be advised to sit out the year due to personal life complications that seemingly interfere with the student's ability to present well in interviews or perform the work of a social worker; and will be referred to appropriate community services if warranted; or

3. Student may be advised to re-consider the appropriateness of a Social Work major. If necessary, the Social Work Division’s Level II review may be initiated (see *BSW Program Manual*).

**CONFLICTS OF INTEREST**

No student may be placed in an agency wherein they or an immediate family member was/is a client now or within the last five years; or is a Field Instructor. Since the Division does not ascertain client information from agencies or students, it is the responsibility of the student to
Students who want a placement which may be perceived as a conflict of interest are encouraged to discuss the situation with the Field Director before requesting or accepting the placement. Students who are found attempting to secure or who secure a placement in an agency where they, or a member of their family, are or were a client during the previous five years will be administratively dropped from the field course and will not be allowed to enroll in the future.

CRIMINAL CONVICTIONS

Depending on the conviction, students who have misdemeanors or felonies may find it difficult to obtain a field placement, and/or future employment or licensure in social work. Most internship agencies require students to undergo fingerprint checks and extensive background checks. Thus, students should be advised that while the Division of Social Work will provide a student with up to three referrals for a placement, it does not guarantee a student will be accepted. A history of felony or misdemeanor convictions may present a barrier to acceptance by any University approved agency and may prohibit the student from completing the social work degree requirements.

The Division of Social Work requires students with felony or misdemeanor convictions to inform the Field Director or the Undergraduate Field Coordinator of such convictions prior to placement. Most agencies will require some form of criminal background check prior to accepting a student for placement. Students with any record of criminal conviction must discuss with the Field Director or Undergraduate Field Coordinator the specifics of the conviction, so that the student may be referred to a placement with background criteria that can be more likely met by the student. During the field interview, students are required to be honest with prospective Field Instructors about their criminal background. Even when a student’s criminal record has been expunged information may emerge during a background check and become an issue for placement. Students should be prepared to discuss their background in the context of how they have grown and changed.

EMPLOYMENT-BASED FIELD INTERNSHIPS

Many students ask if they can use their employment site as a field placement. The use of an employment site as a BSW field site must be approved by the Undergraduate Field Coordinator. Approval is granted only if certain conditions are met and the situation is educationally sound and appropriate for the particular student. With this in mind, the Field Education Office recognizes two types of employment-based internships:

Job Conversion Internship
“Job Conversation internships” are for students who have been employed at their agency for at least one year and consider themselves “career employees.” These students plan to remain in their place of employment in the future, and the agency wishes to make an educational investment in the employee. The goal of the Job Conversion is to provide significantly different opportunities for students to gain social work experience with different populations, services, sites, etc.

New Job Internship
“New Job internships” are for students who are hired into a new agency within the last few months. If approved, the specific assignment of this internship can only be used one time in the course of student’s program.
The requirements listed on the Employment-Based Application include:

1. Application: The student must submit a completed application by the due date. The application is available on the Division website under Field Education “Form.”

2. Agency’s Official Agreement: The agency must agree that the employee will be treated as a student and can complete the academic requirements of the internship. Internship requirements involve completing activities that might not otherwise be a part of the job description. Whereas employees may not have to go to city council meetings, read research articles, relate the NASW Code of Ethics to agency cases or write personally reflective journals for a professor, the intern will. Doing these activities may necessitate lighter caseloads, a longer probationary or orientation period, planned and varied assignments for educational purposes and additional hours above the normal workweek to achieve the internship requirements.

3. Field Instruction: There must be an intern supervisor (“Field Instructor”) who has a degree in social work and at least two years of post-graduate experience. At a minimum, the Field Instructor must provide at least one hour of regularly scheduled “field instruction” per week.

4. Field Instructor Training: There is a requirement that all Field Instructors complete introductory training on how to be an effective Field Instructor. This training is all day and is on campus. The training is available to all agency employees. Six free BBS CEU are available for all attendants. For info and registration: http://www.csus.edu/hhs/sw/fieldeducation/fi-training.html

5. Employment Supervision: The agency must provide an employment supervisor who is a different person than a Field Instructor. This is to ensure, in part, that the Field Instructor is free to focus on the educational aspects of the internship while the employment supervisor can focus on workload issues.

6. Field Assignments: The field instruction tasks/assignments must be significantly new and different from the student’s current or past job duties and must be in accordance with the Division of Social Work’s field curriculum. The activities must occur during sustained periods of time during the week (minimum of 4 hours at a time) preferably at a different location than the site of employment.

7. No Role Confusion: The student must present evidence that role confusion (between student and employee) will not occur. A general rule is that role confusion will always exist in agencies with fewer than 25 employees unless you are physically located in separate places for the employment and the internship.

8. Weekend/Evening Policy: Many students who request employment-based internships want to intern on the weekends and/or at night. The Field Education Office believes that interning during those hours would not provide the intern the opportunities and training necessary to fulfill the objectives/learning goals of their internship. Field hours must be held during the time when the agency is active so the student can participate in the “life of the agency,” e.g., staff meetings, case conferences, and in-service trainings. This is almost always during the day (8am to 5pm), Monday through Friday. If a student cannot be available during these daytime hours, it is probable they will not obtain a field placement.
9. The Educational Requirement for Diversity: The Field Education Office requires that students get out of their comfort zone when in an internship. It is recommended that students use the internship experience to explore different agencies, populations, theoretical perspectives and supervision. An application will be rejected if the employment-based internship keep a student in the same kind of agency environment with the exact same population and the exact same kind of supervision.

10. Developing CSWE Core Competencies: The Division of Social Work is accredited by the Council on Social Work Education (CSWE). There is a strict requirement that the program ensure that a field internship help the student develop specific core competencies. These nine core competencies, listed below, must be a focus of any student’s internship experience and must be referred to in the student’s application.

   1. Demonstrates ethical and professional behavior.
   2. Engages in diversity and difference in practice.
   3. Advance human rights and social, economic, and environmental justice.
   4. Engages in practice-informed research and research-informed practice.
   5. Engages in policy practice.
   6. Engages with clients.
   7. Assesses clients.
   8. Provides intervention to clients.
   9. Evaluate own work with clients.

11. Liability and Separation Waivers: As part of this application, the student needs to sign a special liability waiver. As well, the student must allow the agency/Field Instructor to release to the Field Education Office information regarding the student’s performance, if said performance results in separation from my field internship.

12. Field Education Office Approval: BSW applications must be approved by the Undergraduate Field Coordinator. MSW applications must be approved by the Field Director. All parties (student, field instructor, employment supervisor and agency director) will be notified about the final decision by email.

OFFERS OF EMPLOYMENT BY INTERNSHIP AGENCY

The Division of Social Work recognizes that the goal of most BSW students is to secure employment as a BSW social worker upon graduation. Community agencies also prefer to hire employees who are well educated, already trained, and have proven themselves as valuable members of the team. Thus, there are times when internship agencies will offer paid employment positions to student interns who have not yet completed their internship. While professional activity and learning are not incompatible, there is a difference between the goals of educational development and those of employment.

Student may accept offers of employment and maintain their internship in the same agency upon approval of the Field Education Office only when the following guidelines are met:

1. A Complete Application: The student must complete the attached application which outlines the job responsibilities, internship tasks, and the way in which both will be delineated if the student accepts the offer of employment. The application is available on the Division website under Field Education “Form.”
2. Agency’s Official Agreement: The agency must agree that the employee will be treated as a student and can complete the academic requirements of the internship. Internship
requirements involve completing activities that might not otherwise be a part of the job
description. Whereas employees may not have to go to city council meetings, read research
articles, relate the NASW Code of Ethics to agency cases, or write personally reflective
narratives for a professor, the intern will. Doing these activities may necessitate lighter
caseloads, a longer probationary or orientation period, planned and varied assignments for
educational purposes and additional hours above the normal workweek to achieve the
internship requirements.

3. Field Instruction: There must be a degreed social worker who will act as the intern’s Field
Instructor. The Field Instructor needs to have at least two years of post-graduate experience,
and have already completed the required 6 hours of Field Instructor Training offered by the
CSUS Division of Social Work. The Field Instructor must be someone other than the
person who will supervise the student’s work as a paid employee to ensure, in part, that the
Field Instructor is free to focus on the educational aspects of the internship rather than on
workload issues. The Field Instructor must provide at least one hour per week of field
instruction.

4. Employment Supervision: The agency must provide a job supervisor who is a different
person than a Field Instructor. See above.

5. Good Academic Standing: The student must be in good academic standing within the
Division of Social Work with all passing social work grades.

UTILIZING STUDENTS IN PLACE OF EMPLOYEES
The Division of Social Work does not condone any organization utilizing students as employees
under the guise of field instruction with the exception of the employment based placements.

FIELD INSTRUCTOR TRAINING

All Field Instructors are required to participate in Field Instructor training offered by the
Division of Social Work. Task Supervisors are recommended to attend, as is any agency
employee who works consistently with the intern. New Field Instructors are required to attend
a 6 hour "Introduction to Field Instruction" training. Ongoing Field Instructors must renew their
training by attending a 3 hour "Advanced Field Instruction" training every three years thereafter.

A certificate of completion for CEUs (continuing education units), approved by the California
State Board of Behavioral Sciences (BBS), is emailed to each attendee thereafter. Participation in
the entire training is required for these CEUs.

The Introduction to Field Instruction Training covers:
- competency-based instruction and complex practice behaviors
- agency orientation
- completing/using the Learning Agreement
- the student assessment process
- learning styles
- instructional methods
- problem solving

The Advanced Field Instruction Training varies by topic but always maintains a focus on
developing the competency of the Field Instructor.

PROFESSIONAL LIABILITY INSURANCE
The University provides social work field students professional liability insurance through two CSU system-wide policies. Students performing internships who are enrolled and registered in their respective SWRK 195A/B courses, are covered under two insurance programs for the calendar year when a current agency-university contract is in effect (listed below). A current certificate of these policies can be obtained through a request to the Field Director.

a) SPLIP: Professional Liability Insurance Program
b) SAFECLIP: Student Academic Field Experience for Credit Liability Insurance

No other insurance is purchased or provided to students by the Division of Social Work. Agencies requiring students to carry insurance other than malpractice must make this known to the students during the interview process so that the student can make an informed choice of field placement site.

AUTOMOBILE INSURANCE
Sacramento State University does not provide automobile insurance for students. Liability related to interns transporting clients in personal vehicles is between the agency and the driver in agreement together. The University does not cover the cost of automobile insurance for any of its interns. Sacramento State shall not be held responsible or liable for incidents related to interning students transporting clients.

FIELD AGENCY STRIKE POLICY
The Field policy regarding student internships and strikes (or work actions) is based upon principles of educational integrity, and focuses on how educational expectations, goals, and objectives can be met and maintained. A student's educational experience--rather than the merits of any given strike or work action--is of primary consideration. The Field Education Office ascribes to the educational principle that a strike-bound agency is not able to provide a climate conducive to a sound educational experience.

If an agency is in a strike situation before the beginning of the internship, no students will be placed in that agency. If the agency reaches resolution of the strike situation at some point during the academic year, the agency may be used for a mid-year internship, depending upon reassessment of the agency and its ability to meet the learning and educational expectations of the Field Education Office. Designated field faculty will complete the assessment.

If a strike occurs in an agency where students are in an internship:

- The students may not remain in the agency if the strike is expected to last more than two weeks.
- Students who miss any hours of internship due to a strike must make up hours, either during the regular semester break periods, or by extending the internship into the early summer months. Exceptions to this policy will be considered on a case-by-case basis.
SECTION VII
SAFETY GUIDELINES AND PROTOCOLS

GUIDELINES FOR SAFETY

These guidelines have been created in recognition of the fact that physical and mental vulnerability of professional social workers (and violence in the lives of clients) are realities. No social worker is immune to these vulnerabilities, regardless of practice setting or geographic location. Issues of safety are relevant in all communities and settings and need to be addressed. The following guidelines are set forth to facilitate awareness of safety issues. Students are required to review these guidelines and to ask and discuss with their Field Instructor the safety guidelines and procedures of the field agency.

The Division faculty will address safety issues as they relate to the content of lectures and discussions in the classroom, and during a mandatory pre-field orientation.

Each agency is responsible for orienting student trainees to the safety policies and procedures of that setting. Such orientation should include, but not be limited to, discussion of safety issues in the community, within the agency building(s), and with particular clients prone to violent behavior. Security of personal belongings should be covered. Procedures for the student(s) to follow in the event of a safety or security problem should be reviewed.

To ensure that students become familiar with agency safety protocol, field instructors are required to complete the Field Placement Safety Protocol, Confidentiality and Mandated Reporting Form. (Appendix IV.)

Students must not be required to engage in assignments in which they feel physically at risk. The agency should make the same accommodations to ensure students' safety as they make for staff. If a student's concerns about safety begin to interfere with the learning process, the Faculty Field Liaison should be contacted to facilitate exploration of the concerns.

HEALTH RISKS

Exposure to diseases is a safety issue in many agencies, including those that are not designated health facilities. Therefore, all students are to assess for themselves, health risks associated with different settings and discuss with his/her Field Instructor appropriate precautions even though the agency may not require such things as vaccinations or other such preventive health measures.

PROCEDURES WHEN SAFETY ISSUES ARISE

If an incident occurs in which a student is personally threatened or hurt, the Field Instructor, agency contact person, or agency director should contact the Faculty Field Liaison and the Field Director immediately to discuss what actions the agency and Division should take to ensure student's physical and emotional well-being.
SAFETY TIPS FOR STUDENTS IN THE FIELD

Agency Protocol

It is important for students to know the agency safety and security protocol for office and home visits with clients. In the absence of formal policies, the Field Instructor and student should discuss any issues related to safety and security in the setting.

The guidelines and suggestions below may be helpful to students, Field Instructors, and Faculty Field Liaisons as they consider the particular safety issues in their settings. Specific steps taken by students or agency personnel will obviously have to be determined by the individual situation, the nature of the setting, etc.

Security of Belongings

All students in the field are expected to have a secure place to keep handbags and other belongings while at placement. It is preferable that the space be one which can be locked, and could be in a desk drawer or filing cabinet. It is best not to leave handbags and other personal articles visible and unattended, even in an office with the door closed.

Valuables should not be brought to placement settings. Items of value should not be left in cars, and should not be placed out of view just prior to leaving a vehicle.

Safety Issues Related to Working with Clients

When working with clients, it is important to remember the treatment process often makes people feel vulnerable and may challenge their usual coping mechanisms. With some people, this can contribute to problems with impulse control, and can raise issues of safety for the client, the social worker, and others.

There may be times when students work with individuals who have difficulty with reality testing, dealing with overwhelming emotions, and controlling their anger. Some of them may be prone to violence and may possess a weapon. Other clients may be intoxicated, high on drugs, in withdrawal, or may have other medical or neurological disorders. Again, we would like to emphasize that students consult with agency Field Instructors regarding preparation for and handling of specific situations that are potentially difficult or threatening, such as medical emergencies, suicide or homicide risks, potential abuse of others, and the presence of weapons.

Safety Tips for Office Meetings

If a student will be meeting with a client with whom the student does not feel safe, it is important to discuss the situation fully with the agency Field Instructor. When considering location of the meeting, it might be helpful to think about what is in the room, whether there is more than one exit, and where each person might sit. It may also be helpful to think about whether to include someone else in the meeting, and what to wear. When discussing the time of the appointment, it can be helpful to think about whether or not many people are around at the time being considered for the meeting. Also important to discuss is the plan for backup and assistance in the event the client becomes agitated.

Safety Tips for Travel

When a student is traveling by car to an agency or to home visits, it is advisable to know where
they are going, and to look at a map before driving to unfamiliar areas. In general, remember to be alert, and to lock doors and close windows.

When traveling by foot or public transportation, it is advisable that students carry the least amount of valuables with them as possible. Money, license, keys, and other essentials might be carried in a pocket. If a handbag carried under the arm is grabbed, it is best to let go of it.

It is helpful to dress in comfortable clothes that are loose fitting, and to wear sturdy, flat walking shoes. It is also helpful to be alert, and to walk with a purpose, as if one has a clear destination. One should be aware of people in the immediate area, without staring or maintaining eye contact.

**Safety Tips for Home Visits**

It is important to know something about the client prior to the home visit. If there is a question of safety, plan accordingly with Field Instructors. It might be decided that meeting at a neutral place or going with another worker is the appropriate plan.

It is helpful to stay alert and to think about what to wear, which room to meet in, and where to sit.
SECTION VIII
SOCIAL MEDIA GUIDELINES

Social media channels, such as Facebook, Twitter, YouTube, Flickr, Second Life and various blog sites are just a few examples of new ways to connect with others and share information. However, the rapid growth of social media communication tools and their ease of accessibility can also have unintended and potentially damaging consequences to users if basic guidelines are ignored. Students are expected to adhere to social work values, ethics and engage in professional conduct as outlined in the NASW Code of Ethics when using social media communication tools, whether using a personal site(s), agency site(s), or University site(s). Highlighted below are just a few of the relevant NASW Code of Ethics standards:

- **SOCIAL WORKERS’ ETHICAL RESPONSIBILITIES TO CLIENTS** - informed consent (Section 1.03), conflicts of interest and dual relationships (Section 1.06), and privacy and confidentiality (Section 1.07).
- **SOCIAL WORKERS’ ETHICAL RESPONSIBILITIES TO COLLEAGUES** – respect (Section 2.01), confidentiality (Section 2.02)
- **SOCIAL WORKERS’ ETHICAL RESPONSIBILITIES AS PROFESSIONALS** – private conduct (Section 4.03), misrepresentation (Section 4.06)

As a social work professional, it is important to consider whether you are using social media channels for professional activities, such as advancing social justice issues, advocating for vulnerable populations and promoting your professional identity, versus using these sites to maintain contact with friends and family. Your *professional image*, that is, the professional self you develop that is guided by social work values and ethical standards, extends beyond the field agency and physical setting of an office.

As social workers, we must be cognizant the legal, ethical and clinical responsibilities we have as professionals and those obligations extend to the virtual world of the Internet and include the use of social media communication tools. As with the Hippocratic oath to “first do no harm,” it is imperative to consider how to be connected within the context of social media while protecting yourself, your field site, your clients, the Sacramento State University Division of Social Work, and the profession.

In order to better understand how to manage social media, ask your Field Instructor the following questions:

1. Does your field site have a policy on the use of social media communication tools? If so, review the policy with your field instructor. If not, what expectation does the agency have regarding the use of social media during field hours?

2. How much personal information is shared with clients and former clients as well as agency staff and professional colleagues?

3. What are the most common ethical concerns you should be aware of when using social media as a professional social worker?

See Appendix VII for handout “Guidelines for Using Social Media.” Used by permission from the Boise State University School of Social Work, Field Education Program.
Many students who work full time request evening or weekend internships because of their employment. The Division of Social Work, Field Education Office believes that interning during those hours would not provide the intern the opportunities and training necessary to fulfill the objectives/learning goals of their internship.

Field hours must be held during the time when the agency is active so the student can participate in the “life of the agency,” e.g., staff meetings, case conferences, field instruction and in-service trainings. These activities are almost always during the day (8am to 5pm), Monday through Friday. If a student cannot be available during these daytime hours, it is probable they will not obtain a field placement.

Specific Concerns:

- Evenings and weekends offer no opportunities for case management as linkages are usually with agencies that are only open during the day hours on Monday through Friday.

- Agencies usually have assessment and treatment team meetings and staff meetings during the day. It is essential that interns get the opportunity to experience and participate in staff meetings.

- Interns cannot attend the necessary county trainings to be able to use AVATAR and thus they will not be able to do the clinical paperwork or progress notes, at most they can shadow that process.

- There is often limited opportunities to shadow other experienced social workers and other workers on the weekend and at night.

- In particular graduate level students need the experiences/training/shadowing that is offered during the work week.

- The needs of the Learning Agreement cannot be met by working evenings or weekends.
APPENDIX II
FIELDCONNECT INFORMATIONAL HANDOUT

DESCRIPTION:
FieldConnect is the online database being used to complete the required documentation by the field office, including the Learning Agreement, Mid-Semester Evaluation and End of Semester Evaluation. FieldConnect establishes an online system of communication between student, field instructor and faculty field liaison.

ACCESSING FIELDCONNECT
Student Log In
2. Click the "Log in" button at the top of the page.
3. If you are already logged into your Saclink account you will be logged into the system right away. If you are not, it will redirect you to the Saclink log in page.
4. Once logged in you can view your current placements (or past placements) and execute forms related to your placement.

Faculty Log In
2. Click the “Log in” button at the top of the page.
3. If you are already logged into your Saclink account you will be logged into the system right away. If you are not, it will redirect you to the Saclink log in page.
4. Once logged in you can click “Manage Course” to view the students in your courses. Click view forms above the list of students to view any forms that have been submitted.

Field instructor Log In
2. Click the "Community Partner Log in" button at the top of the page.
3. If you forgot your username or password click the tab that says "request new password"
4. Once logged in, click “View/Manage Students” and then the placement number (far left side) to view/execute forms.
SWRK 195A/B SYLLABUS Regular Semester Program
FIELD INSTRUCTION & INTEGRATION SEMINAR

COURSE DESCRIPTION
SWRK 195A/B is a two semester sequence of instruction that takes place in a University approved human service agency located in the community. Experiential instruction and learning takes place under the supervision of an agency field instructor and is, at times, supported by an agency task instructor. Collaboratively, the University Field Liaison supports the integration of experiential learning with generalist social work practice theory and practice processes through the co-requisite SWRK 140B/C courses and through field visits. Students are expected to demonstrate, under the auspices of the certified field instructor, their ability to apply the knowledge, practical skills, critical thinking/reasoning abilities, and interpersonal communication skills required of undergraduate level social workers.

COURSE INSTRUCTORS
The Field Instructor is an MSW (a BASW may also supervise BASW students) working within the placement agency, or contracted by the agency, providing oversight of the student’s learning experience in the placement. The Faculty Field Liaison is a member of the Social Work faculty who tracks the placement, and provides consultation and monitoring for the student and the Field Instructor. In most cases, the Faculty Field Liaison will also be the student’s SWRK 140B/C Social Work Practice course professor. Students can expect the Faculty Liaison to monitor their placements through sites visits (once per semester) email, phone contact, class discussion, in-person meetings, video conferenced meetings, field journals and process recordings.

COURSE OBJECTIVES
By the end of the field experience, the student will demonstrate the ability to:

1. Recognize and continually evaluate own attitudes toward diversity, including gender, race, religion, ethnic, class, sexual orientation, age, and disability.
2. Demonstrate an awareness of own needs and motivations for becoming a professional social worker.
3. Identify individual strengths and areas for growth as part of a continual process of personal and professional self-awareness and self-evaluation
4. Demonstrate beginning understanding of how agency mission, operational policy and procedures, resources, and funding impact upon the delivery of social services, in particular, in their own field setting.
5. Demonstrate beginning understanding and application of an ecological framework for assessment, problem identification, intervention, and evaluation.
6. Demonstrate beginning knowledge of research skills to identify intervention techniques for evidence based practice.
7. Demonstrate awareness of professional values and ethics.
8. Begin to apply problem-solving methods and techniques to client systems (e.g. individuals, families, groups, organizations, and/or communities).
9. Demonstrate a beginning awareness of clients’/community strengths and limitations and demonstrate ability to help clients/communities build on and use their strengths.
10. Demonstrate a beginning awareness of community resources and know how to engage these resources on behalf of clients.
11. Demonstrate a beginning knowledge and ability to work effectively with diverse populations, building on strengths.
12. Discuss and understand the roles and contributions of multiple disciplines and specializations working in a collaborative effort.
13. Begin to demonstrate integration and application of knowledge acquired in the academic setting to practice situations.
14. Begin to demonstrate an ability to use appropriate oral and written communication skills in organizing and recording necessary client information and completing administrative paperwork requirements.

**CSWE SOCIAL WORK COMPETENCIES**

The Council on Social Work Education (CSWE) has adopted a competency based framework to guide accredited social work program curriculum. What is meant by a social work competency? CSWE defines a competency as the ability to integrate and apply social work knowledge, values, and skills to practice situations in a purposeful, intentional, and professional manner to promote human and community well-being (CSWE, 2015, p. 6). Nine interrelated Social Work Competencies give shape to the competency based framework. These are actualized through practice behaviors that students are expected to successfully demonstrate.

THE LEARNING AGREEMENT

The following section lists the nine social work competencies on the BASW Learning Agreement.

10. Student demonstrates ethical and professional behavior.
   10.1 Make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context.
   10.2 Engages in productive problem-solving and appropriate conflict resolution and uses open communication.
   10.3 Use reflection and self-regulation to manage personal values and maintain professionalism in practice situations.
   10.4 Demonstrate professional demeanor in behavior, appearance, as well as oral, written, and electronic communication.
   10.5 Use technology ethically and appropriately to facilitate practice outcomes.
   10.6 Use field instruction/supervision and consultation to guide professional judgment and behavior.

2.0 Student engages diversity and difference in practice.
   2.1 Articulates self-awareness regarding own identity, personal biases, fears and values related to various groups and/or when discussing/planning client work.
   2.2 Communicates understanding the importance of diversity and differences in shaping life experiences.
   2.3 Employs diversity-sensitive practice skills.
   2.4 Presents self as learner and engages clients and constituencies as experts of their own experiences.

3.0 Student advances human rights and social, economic, and environmental justice.
   3.1 Applies principles of social, economic and environmental justice to advocate for human rights at the individual and systems levels.
   3.2 Engages in practices that advance social, economic and environmental justice within the scope of the agency’s mission.

4.0 Student engages in practice-informed research and research-informed practice.
   4.1 Applies research findings to inform and improve practice, policy, and service delivery as relevant to placement setting.
   4.2 Implements evidence-based interventions.

5.0 Student engages in policy practice.
   5.1 Identifies social policy at the local, state and federal level that impacts well-being, service delivery and access to social services.
   5.2 Assesses how social welfare and economic policies impact the delivery of and access to social services.
   5.3 Advocates for policies relevant to the client population.

6.0 Student engages with individuals, families, groups, organizations, and communities
   6.1 Applies theory and knowledge (human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks) to engage with clients and constituencies. (Constituencies include individuals, families, groups, organizations and communities.)
   6.2 Uses empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

7.0 Student assesses individuals, families, groups, organizations, and communities.
7.1 Collects and organizes data and applies critical thinking to interpret information from clients and constituents.
7.2 Applies theory and knowledge (human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks) in the analysis of assessment data from clients and constituencies.
7.3 Develops mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies.

8.0 Student intervenes with individuals, families, groups, organizations, and communities.
8.1 Selects appropriate intervention strategies based on the assessment, research, values and preferences of clients and constituencies.
8.2 Implement interventions to achieve practice goals and enhance capacities of clients and constituencies.
8.3 Use multidisciplinary collaboration as appropriate to support practice.
8.4 Intervene (negotiate, mediate, and advocate) on behalf of clients and constituents.
8.5 Facilitates effective transitions and endings which advance mutually agreed-on goals.

9.0 Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities
9.1 Selects and uses appropriate methods for evaluation of outcomes.
9.2 Evaluates (monitors and critically analyses) interventions and outcomes.
9.3 Applies evaluation findings to improve practice effectiveness.

STUDENTS WITH DISABILITIES
Students in need of a reasonable accommodation at the field placement site due to a disability must follow the University procedures regarding students with disabilities (see University Catalogue). Students should contact Services for Students with Disabilities, 916-278-6955, for assessments and accommodation plans, prior to applying for field.

### REQUIRED COURSE ASSIGNMENTS

Faculty Field Liaisons assign the following course requirements. Satisfactory completion of these assignments as directed by the Faculty Field Liaison is required to receive credit for the field course. Faculty Field Liaisons have discretion to develop their own versions of the asterisked assignments. Each student is responsible for completing each of the following within the time frame specified:

1. **LEARNING AGREEMENT (LA):** During the first month of placement, students and their Field Instructors will engage in an assessment of student educational needs, and together will develop a LA according to a form provided by the Division. Faculty Liaisons, if needed, are available to assist in developing the LA. The LA should be considered as the overall roadmap for the student’s learning experience throughout the year. It should be reviewed regularly during the field instruction hour by the student and Field Instructor, and modified as needed. Students are responsible for submitting the completed and signed Learning Agreement to their Faculty Field Liaison no later than the second week of October.

2. **SWRK 140B/C SYLLABI:** Students must provide their Field Instructors with a copy of the practice course syllabus and should discuss ways of integrating course material with the field experience. Students must give Field Instructors sufficient advanced notice about any field-related assignments that requirement Field Instructor participation and/or review.

3. **FIELD JOURNAL** – The purpose of this assignment is for students to demonstrate the ability to engage in self-reflection and integrate classroom knowledge with field experience. Journals also provide an opportunity for Faculty Field Liaisons to monitor the progress of the placement. Liaisons have discretion regarding the frequency and format of the journals.

4. **MID-SEMESTER FIELD PROGRESS REPORT:** This report is a tool to help the student, Field Instructor and Field Liaison identify any potential struggles or challenges that can be addressed in order to support a student’s progress in field education.

5. **STUDENT EVALUATION** – This document should be consulted while the Learning Agreement is developed. The student is responsible for making arrangements in a timely manner for the Field Evaluation to be completed at the end of the semester. The recommended process is for student and
Field Instructor to complete the Evaluation form individually, then meet together to discuss the results. If there is a Task Supervisor who has worked with the student, he or she should have input into the Field Evaluation and should sign the form in addition to the Field Instructor. Students must turn in an original Field Evaluation with signatures by the end of the semester in order to receive Credit for the course. Students are encouraged to make copies of their field evaluations for future reference. NOTE: Faculty Liaisons may require additional assignments, but these must be clearly stated in writing and provided to the student at the beginning of the academic year. In addition, Liaisons may require students to meet individually and/or as a group during the semester, outside of practice class. *Students failing to complete field assignments in a timely manner may receive a NC for field.*

FIELD INTERNSHIP EXPECTATIONS

Students must meet the requirements of their field placement. To meet these requirements, students are provided with a set of educational experiences under the supervision of the Field Instructor. The expected minimum field assignments include:

1. **DIRECT WORK WITH CLIENTS.** Students must work directly with the client populations served by their agencies. It is expected that each student will carry a “learner’s” load of 4 to 6 cases throughout the semester. Students are expected to participate in engagement, assessment, and intervention phases of the helping process. Students must have opportunities to work with diverse clients, including women, ethnic minorities, GLBTQ, or other specialized populations. Agency and academic documentation is required, including: process recordings, case assessments, field journals, ongoing case/group recordings, and administrative reports. Any documentation required by the agency must be completed.

2. **GROUP WORK.** Students must have an opportunity to co-plan and co-facilitate one or more groups within their agency settings. The identification of this assignment is done in conjunction with the Field Instructor in order to ensure that the type of group is consistent with the level of intervention skills of an emerging practitioner. It is understood that some agencies do not offer client groups. In these situations, the student must facilitate an agency task group, staff meeting, coalition meeting, board meeting, etc.

3. **IN VolvEMENT IN AGENCY LIFE.** Students should be encouraged to:
   - Participate in staff meetings
   - Attend at least one board meetings during the field year
   - Participate in community events and/or inter-organizational meeting.
   - Present a case in a staffing forum used by the agency

4. **TIME REQUIREMENT.** The time requirement for the BASW field course is 2 days/week, 8 hours/day, over the course of 32 weeks (Fall and Spring semester).*

<table>
<thead>
<tr>
<th></th>
<th>Fall</th>
<th>Spring</th>
<th>Total Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>14 weeks x 16 hours = 224 hours</td>
<td>18 weeks x 16 hours x = 288 hours</td>
<td>33 weeks = 512 hours</td>
</tr>
</tbody>
</table>

*NOTE: These hours may vary depending upon University and Field Agency holidays.

- Field placement days for BASW students are Monday and Wednesday, to accommodate the schedule of BASW classes.
- Students will schedule their hours with the Field Instructor to meet the needs of the agency and to fulfill the students required 16 hours per week in field.
- Time spent commuting to and from the agency as well as non-working lunches may not be counted toward the field hour requirement.
- Time invested in field-related workshops must be pre-approved by the field instructor.

5. **ATTENDANCE.** Attendance and punctuality in field demonstrate professional accountability (Competency 1). If, due to illness or emergency, a student is unable to report to field or will be
late, the appropriate agency personnel must be informed as early as possible. The Field Instructor must be informed of the reason, and the student is responsible for any missed field obligations.

6. **“SUPERVISION” WITH THE FIELD INSTRUCTOR.** Educational supervision or “Field Instruction” is a collaborative relationship between the Field Instructor and the intern that facilitates the development of professional competence. It is an interactional process in which the primary purpose is to ensure the quality of client care while the intern is gaining professional competence. Because performance as an adult, self-directed learner is demanded in field instruction, it is the student’s responsibility to evaluate his or her own work, and accept constructive feedback. A minimum of one hour per week of scheduled educational supervision with the Field Instructor is required.

7. **PRACTICE CLASS = INTEGRATIVE SEMINAR.** Integrative Field Seminar is designed to provide students with an opportunity to integrate classroom theory to current field and professional experience. The Seminar occurs in conjunction with the practice class. Seminar involves peer consultation, challenging personal and professional values, self-exploration and reflection, critical thinking and group building. Since the goal of the Seminar is to apply knowledge, values, and skills to practice, the success of the Seminar depends on each student’s full participation and engagement. This includes respectful sharing and listening to the opinions and concerns of others, offering suggestions and ideas in a positive and supportive manner, and being willing to promote group cohesiveness in a learning environment. Information shared in class about agencies, clients, and personal matters is considered confidential per the NASW Code of Ethics on educational supervision.

8. **SEMINAR IS NOT**
   - A forum to complain about problems in the field – problems are best addressed with the people involved. If you have a problem, you can discuss how you are working to resolve the problem. The most appropriate way to discuss a problem is in the context of a problem solving model. See your field textbook for this model.
   - A gossip session – before you speak, ask yourself if what you are going to say contributes to your own learning and that of your peers. If not, don’t say it. **Do not discuss client issues with anyone outside the seminar setting.**
   - A therapy session – while feelings related to your developing competence as a social worker in training are appropriate, issues related to your personal life need to be addressed in a different environment.

9. **THE ROLE OF THE FACULTY FIELD LIAISON.** The Faculty Field Liaison serves three main roles: to assist and assess students in their professional growth and development as they progress through the field education curriculum; to assist Field Instructors in the development of appropriate learning opportunities or support them in their role as a Field Instructor; and to mediate or resolve problems affecting a student’s progress in the field. More information about these roles can be found in the **CSUS Curriculum and Police BASW Field Education** posted on the Division of Social Work website at [http://www.csus.edu/HHS/SW/FieldEducation/Field-Manual.html](http://www.csus.edu/HHS/SW/FieldEducation/Field-Manual.html)

10. **FACULTY FIELD LIAISON VISITS.** The Faculty Liaison will conduct a “site visit” one time a semester to confer with the student and Field Instructor about workload and performance. The format and schedule of visits will vary depending on the needs of agencies, students, and Faculty Field Liaison. “Site visits” may be conducted through a “video conferencing” if the Faculty Field Liaison and Field Instructor agree that this format is a suitable substitute for an actual in-person site visit.

11. **PROBLEM-SOLVING PROCESS.** If the student identifies a problem in the field placement that does not involve discrimination, harassment or retaliation, then he/she should follow the Problem Solving Process described in the **CSUS Curriculum and Police BASW Field Education**
12. UNIVERSITY INSURANCE FOR FIELD STUDENTS. Sacramento State students performing internships through the Division of Social Work, who are enrolled and registered in their respective SWRK 195A/B courses, are covered under two insurance programs for the calendar year when a current CSUS agreement/contract is in effect: a) SPLIP: Professional Liability Insurance Program, and b) SAFECLIP: Student Academic Field Experience for Credit Liability Insurance.

13. SAFETY. As part of professional social work education, students will have assignments that involve working in agency settings and/or the community. As such, these assignments may present some risks. Sound choices and caution may lower risks inherent to the profession. It is the student's responsibility to be aware of and adhere to policies and practices related to agency and/or community safety. Students should notify the Field Instructor and/or agency staff regarding any safety concerns as soon as they arise.

14. AUTOMOBILE INSURANCE. Sacramento State does not provide automobile insurance for students. Liability related to interns transporting clients in personal vehicles is between the agency and the driver in agreement together. The University does not cover the cost of automobile insurance for any of its interns. Sacramento State shall not be held responsible or liable for incidents related to interning students transporting clients.

15. USE OF SOCIAL MEDIA AND PROFESSIONAL COMMUNICATION. Public social networks are not private. Even when open only to approved or invited members, users cannot be certain that privacy will exist among the general membership of sites. If social work students choose to participate in such forums, please assume that anything posted can be seen, read, and critiqued. What is said, posted, linked to, commented on, uploaded, subscribed to, etc., can be accessed and archived, posing potential harm to professional reputations and prospective careers. Social work students who use social media (i.e. Facebook, Twitter, etc.) and other forms of electronic communication (i.e. blogs, etc.) must be mindful of how their communication may be perceived by clients, colleagues, faculty, and others.

Social work students are expected to make every effort to minimize material which could be considered inappropriate for a professional social worker in training. Because of this, social work students are advised to manage security settings at their most private levels and avoid posting information/photos or using any language that could jeopardize their professional image. Students are asked to consider the amount of personal information posted on these sites and are obliged to block any client access to involvement in the students’ social networks. Client material should not be referred to in any form of electronic media, including information that might lead to the identification of a client or compromise client confidentiality in any way. Additionally, students must critically evaluate any material that is posted regarding community agencies and professional relationships, as certain material could violate the standards set by the Division of Social Work, and/or the NASW Code of Ethics. Social work students should consider that they will be representing professional social work practice as well as Sacramento State University and the Division of Social Work program while in the classroom, the university community, and the broader area communities.

16. CELL PHONES: Cell phone use in the field placement has ethical, legal, and liability implications. It also has implications regarding professional boundaries and self-care. Use of a personal cell phone for client communication is strongly discouraged, but if necessary, should be planned well and in advance with your Field Instructor.

17. TITLE IX REPORTING. In accordance with Title IX of the Education Amendments of 1972, Sacramento State University is committed to maintaining a learning environment that is free from
discriminatory conduct based on gender. Students who report incidents of sex discrimination, sexual harassment, sexual violence, or sexual misconduct to faculty, instructors, and/or staff who supervise students, will be provided a list of University resources. If the incident is impacting the academic environment, a report will be provided to the University’s Title IX Coordinator. Further information, including student resources related to Title IX, may be found at http://www.csus.edu/titleIX/

18. **GRADING:** Field Education is a year-long course graded on a Credit/No Credit basis. A grade is given at the end of each semester. A student may not proceed to the next semester unless he or she receives “Credit” for the preceding semester. Field Instructors do not assign grades. They evaluate students and provide input into the overall assessment of students’ performance in the field. The Faculty Liaison assigns either **Credit (CR)** or **No Credit (NC)** at the end of the semester. Grades are largely based on performance in the placement, but are also based on the completion of any field-related assignments required by the Faculty Liaison.

Grades are based on the following criteria:

- a. Student completes all field assignments (specified above) in a timely fashion,
- b. The quality of these assignments,
- c. The student’s field evaluation, completed by Field Instructor, and
- d. The liaison’s assessment of the student’s professional development relative to the Learning Agreement competencies set forth in this Syllabus, and whether or not the student is ready to practice social work at the baccalaureate level.
- e. Completion of the **entire 32 week placement** in the same agency. Exceptions may be made to this policy in extreme circumstances based on the discretion of the Field Director.
- f. An Incomplete “I” grade is given when it is determined that a student has not yet met the minimum competency expected by the end the semester and/or missed days at field for approved reasons. A Performance Improvement Plan is developed by the Faculty Field Liaison and agreed upon with the Field Instructor. When the student has satisfactorily met the objectives set out in the Performance Improvement Plan, the student can receive a grade of “CR”.
19. FAILING A FIELD COURSE OR A PRACTICE COURSE
Field and practice courses are co-requisites and must be taken concurrently. Failing one will stop a student’s progress into the next semester of field and practice. Please see examples below.

Example 1

<table>
<thead>
<tr>
<th>Course</th>
<th>Final Grade</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>140B</td>
<td>C- or lower</td>
<td>Student must repeat 140B the following year and may not proceed to 195B until 140B is passed.</td>
</tr>
<tr>
<td>195A</td>
<td>Credit</td>
<td></td>
</tr>
</tbody>
</table>

Example 2

<table>
<thead>
<tr>
<th>Course</th>
<th>Final Grade</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>140B</td>
<td>C or better</td>
<td>Student must repeat 195A the following year and may not proceed to 140B until 195A is passed.</td>
</tr>
<tr>
<td>195A</td>
<td>No Credit</td>
<td></td>
</tr>
</tbody>
</table>

20. REPEAT POLICY. Students may receive a “NC” for field due to inability to complete the required time commitment, and/or for inability to achieve minimum competence in one or more key competencies. When a student earns a “NC”, the Faculty Field Liaison may recommend to the Field Director that the student be allowed to repeat the course. Permission to repeat the course is governed by the University’s Repeat Policy, and by the Division of Social Work’s Field Problem Solving and Review Process (See the CSUS Curriculum and Police BASW Field Education at [http://www.csus.edu/HHS/SW/FieldEducation/Field-Manual.html](http://www.csus.edu/HHS/SW/FieldEducation/Field-Manual.html)).
APPENDIX IV
PROCESS RECORDINGS

SUGGESTED PROCESS RECORDINGS FORMAT AND INSTRUCTIONS

PROCESS RECORDING OF A SMALL SYSTEM CLIENT

1. Please be sure to disguise all identifying information to maintain client confidentiality.

2. The client may be an individual, a couple, or a family – children and adult(s). The interview being recorded must be an initial interview, but not one in which an agency intake form needs to be filled out or eligibility determined. The questions must be yours, not from a form.

3. Follow the outline below:

   A. Introduction

      - The Agency: Briefly describe the nature and purpose of your agency.
      - The Client: Age, gender, ethnicity, religion, and a brief overview of client's family, living and work situation.
      - The Need: Reason for Referral/Presenting Problem

         a. Initial presenting problem: Who referred the client to the agency and to you? When? Why? What has been done since then to the time this client was assigned to you?

         b. Any collateral contacts you have had on behalf of this client and the information obtained from these and other sources.

   B. The Interview (see suggested format)

      - Number and specific purpose of the interview being recorded.
      - Time and Location of the interview.
      - Appearance and affect of the client during this interview.
      - Transcript of the interview: You are encouraged to tape-record and transcribe the interview. If recording is not possible, please write the complete interview in the form of a conversation exactly as it occurred, from the first hello to the last goodbye. Do not summarize portions. Whether or not tape-recorded, include all non-verbal behavior observed (yours and client's) as well as your (unspoken) thoughts and feelings as they occur during the interview.

**SUGGESTED FORMAT**

The Agency: ____________________________________________________  
________________________________________________________________

</tr>
</tbody>
</table>

4. **Analysis**

Go over your process recording line by line and identify:

A. From client's verbal and non-verbal communications – examples of stressors of the client, and any feelings, anxieties, transferences, ambivalences and resistances, coping mechanisms…anything that tells you something about the client.

B. From your verbal and non-verbal communications – examples of social work values, principles and techniques, counter-transferences. If at any point you feel your communication did not reflect the values/principles etc. appropriately, what could you have done or said differently?

C. Identify the beginning, middle and ending phases of the interview. Was the intended purpose of the interview achieved? Is yes, substantiate…

D. Based on the information you have about the client so far – what is your assessment at this time? Is the client functioning at an age-appropriate level? If not, at what level is he/she functioning?
PROCESS RECORDING OF LARGE CLIENT SYSTEM  
(Treatment or Task Group, Organization or Community)  

The Agency/Unit you represent. (Describe the agency, its services, the demographics of its client population and staff; and other relevant descriptions.)

1. Purpose of meeting:

2. Who is at the meeting:  
Roles of individuals and units/agencies represented.

3. Need for meeting:  
Presenting problem; who called the meeting? Why? What has been done about the problem in previous meetings? What social policies pertain to the presenting problem?

4. Transcript of group dynamic:  
Who said what? What is the affect of different individuals and their responses/statements? What is the nature/characteristic of the different interactions?

Summary Description of Group Dynamics: Was purpose accomplished? Why or why not? What is the future collective action of the group?
APPENDIX V
LIVE OBSERVATION

Sacramento State University
Division of Social Work
Field Education

Live Observation:
Field Instructor Observing the Intern

It can be exceptionally anxiety-provoking for interns to be directly observed by a field instructor, and the instructor’s presence in the room may artificially change the dynamic with the client. That said, there is evidence that clients take comfort with the instructor being in the room and visible at times as they feel their care is improved (Locke & McCollum, 2001), particularly if the purpose and procedures are clearly explained to them at the onset of treatment and are reviewed again prior to the instructor’s presence. Also, once interns become entrained to this training technique, they tend to feel better seen, understood, supported and helped by an able instructor. Live observation can occur behind a one-way mirror or by the instructor being in the room with the client. The observation can be strictly that or can be interactive with the instructor communicating directly to the intern and/or client. In the simplest form, the instructor introduces him/herself at the beginning and makes a few brief comments at the end; in maximum form, the instructor and intern conduct a session together. To introduce the intern to this, the field instructor might begin by inviting the intern to “visit” one of the instructor’s sessions to observe and comment.

Provide client and intern with clear instructions about your purpose and role and what they can expect. Tell the client that you are there more to observe and help the counselor (i.e., the intern) than to observe and critique them and that “three heads may be better than two” at problem-solving. If intern is highly anxious about being observed, highlight observed strengths and improvements, praise him/her for tolerating the experience and ask them to self-evaluate, limiting your critique until the intern grows more comfortable with the process whenever possible.

At times, you may also appear in session to directly talk with the client as a sort of quality assurance check-in with the intern present?

1. What is your understanding of what you and your counselor/case manager (i.e., the intern) are working toward together?

2. What is the most helpful thing about your time with your counselor/case manager (i.e., the intern)?

3. What progress do you feel you are making? How are you accomplishing this?

4. How satisfied with you are the efforts your counselor/case manager (i.e., the intern) is making to assist you?

5. How satisfied are you with your own efforts to assist yourself?

6. If your counselor/case manager (i.e., the intern) could make one change that would improve the sessions for you, what would it be?

7. How could I support your counselor/case manager in supporting and assisting you?

8. Anything else you’d like me to know?
APPENDIX VI
SAFETY IN THE FIELD

FIELD PLACEMENT SAFETY, PROTOCOL, CONFIDENTIALITY AND MANDATED REPORTING VERIFICATION

Sacramento State University Risk Management policies require that the Division of Social Work obtain documentation confirming that field students receive safety protocol orientation in their field placement. This orientation must occur before the student has direct contact with clients, or within the first 4 weeks of placement, whichever comes first. Orientation should cover the topics below. Both Field Instructor and Student must sign this form. Please attach this completed form to the Learning Agreement before submitting to the Faculty Field Liaison.

Topics to be covered:

SAFETY

1. Working with potentially violent clients.
   How covered: _____formal training _____consultation with FI or other staff _____written policy

2. Safety precautions in the neighborhood or surrounding areas.
   How covered: _____formal training _____consultation with FI or other staff _____written policy

3. Precautions when making home visits and transporting clients.
   How covered: _____formal training _____consultation with FI or other staff _____written policy

   How covered: _____formal training _____consultation with FI or other staff _____written policy

5. Emergency procedures in case of other dangers (e.g., severe weather, fire, other misc. threat).
   How covered: _____formal training _____consultation with FI or other staff _____written policy

6. Protocol for driving in the course of placement duties, to include car accidents.
   How covered: _____formal training _____consultation with FI or other staff _____written policy

7. Health and wellness precautions (e.g., contagious disease).
   How covered: _____formal training _____consultation with FI or other staff _____written policy

ETHICS

8. Agency procedures safeguarding client confidentiality.
   How covered: _____formal training _____consultation with FI or other staff _____written policy

9. Policy and procedures for mandated reporting of abuse/neglect and client danger to self or others.
   How covered: _____formal training _____consultation with FI or other staff _____written policy

10. Expectations regarding boundaries, student self-disclosure, appropriate contact and professional role with clients.
    How covered: _____formal training _____consultation with FI or other staff _____written policy

I, _____________________________________________________, have received orientation on the topics above.

APPENDIX VII
SOCIAL MEDIA GUIDLINES

Guidelines for Using Social Media*
Sacramento State University-Division of Social Work
Field Education Program

*Borrowed with permission from Boise State University School of Social Work

Social media channels, such as Facebook, Twitter, YouTube, Flickr, Second Life and various blog sites are just a few examples of new and exciting ways to connect with others and share information. However, the rapid growth of social media communication tools and their ease of accessibility can also have unintended and potentially damaging consequences to users if basic guidelines are ignored. Students are expected to adhere to social work values, ethics and engage in professional conduct as outlined in the NASW Code of Ethics when using social media communication tools, whether using a personal site(s), agency site(s), or University site(s).

Common issues that students need to understand, and manage, when utilizing social media include, but are not limited to, privacy and confidentiality (Section 1.07), conflicts of interest and dual relationships (Section 1.06), and informed consent (Section 1.03) in our relationships with clients, colleagues, and in our practice settings. Utilizing social media communication tools as a social work professional requires ongoing attention to these ethical challenges.

As a social work professional, it is important to consider whether you are using social media channels for professional activities, such as advancing social justice issues, advocating for vulnerable populations and promoting your professional identity, versus using these sites to maintain contact with friends and family. Your professional image, that is, the professional self you develop that is guided by social work values and ethical standards, extends beyond the field agency and physical setting of an office.

As social workers, we must be cognizant that the legal, ethical and clinical responsibilities we have as professionals and that those obligations extend to the virtual world of the Internet and include the use of social media communication tools. As with the Hippocratic oath to “first do no harm,” it is imperative to consider how to be connected within the context of social media while protecting yourself, your field site, your clients, the School of Social Work, and the profession.

As you get started in your field placement, it may be helpful to explore the following questions with your field instructor and/or task supervisor.

1. Does your field site have a policy on the use of social media communication tools? If so, review the policy with your field instructor. If not, what expectation does the agency have regarding the use of social media during field hours?
2. How much personal information is shared with clients and former clients as well as agency staff and professional colleagues?
3. What are the most common ethical concerns you should be aware of when using social media as a professional social worker?
To help facilitate these conversations, consider the following topics for discussion with your field instructor and/or task supervisor.

What are the agency guidelines regarding the use of Facebook and who can you friend?

Managing friend requests and maintaining privacy settings is critical regardless of whether you use social media for personal and/or professional reasons. Allowing clients, former clients, or others in your professional circle to cross into your personal life may complicate and blur your professional boundaries. This is particularly tricky when managing Facebook accounts. As a professional, you must fully consider the extent of your privacy settings, how you will manage friend requests, your level of self-disclosure, and how you will monitor wall posts or other interactions on your site.

Be aware that if you do not employ any privacy settings on your social media site, your profile is public and anyone can see what is on your page. Additionally, people can see when you are tagged in photos, view comments made by others, note your status updates, and see who you’ve friended. All professionals must evaluate the scope of their social media connections. Since this is still an emerging professional topic, some professionals may be cautious and guarded in their use of social media while others may be more open and exposed. *It is your responsibility as a professional social worker to abide by the Code of Ethics, including your virtual communications and use social work values and principles to guide your interactions.*

What privacy and confidentiality concerns should I consider when texting, emailing and/or using Twitter?

With the proliferation of hand held devices such as smart phones, iPhones, and Blackberries, accessing the Internet and connecting with others is literally in the palm of our hands. Text, email and Twitter are quick and effective ways to communicate with others however many ethical, legal, and clinical issues must be addressed when using these communication tools.

There is huge potential for unintentionally sharing protected information so always use good ethical judgment. Be cautious about discussing information about your field placement, classroom work, or agency staff. *Do not discuss confidential or private information about clients, colleagues, or agency practices even if you are disguising the information.*

In general, consider the security, privacy and confidentiality of all communication methods and when in doubt, seek consultation and supervision before embarking into unfamiliar or uncertain areas. Observe all state and federal regulations such as FERPA and HIPAA, as well as University Policy(ies).

**Be aware:** Employers and volunteer organizations are more frequently requesting passwords and permissions to see what is behind your privacy settings. You have the right to refuse permission. However, doing so may be a consideration in whether or not you are offered opportunities to work with them. Further, allowing organizations to see everything may also be hazardous to future opportunities. Make sure you know what’s “out there.”

Can I check my personal social media accounts during field hours?
In general, your time in field and the resources provided to you in your field placement are to be used for field related matters. Before using social media communication tools on behalf of your agency, be sure to seek approval of any messages or posts. Be careful not to endorse or promote a product, cause or position without prior approval. If you have personal sites, it is best to maintain them on your own time using your own computer.

I can’t find anything in the Code of Ethics that specifically mentions social media, so does that mean the Code of Ethics does not apply?

Absolutely not! The NASW Code of Ethics provides a variety of standards that social workers should consider when engaging in the use of social media. Here are a few examples of the Codes applicability to social media.

✔ Standard 1.06 states that “social workers should not engage in dual or multiple relationships…in which there is a risk of exploitation or potential harm to the client…and social workers…are responsible for setting clear, appropriate, and culturally sensitive boundaries”

   (1.06c) The Code goes on to note that “dual or multiple relationships can occur simultaneously or consecutively” (1.06c) Our ethical obligations to clients, colleagues and other professionals are no different when using Facebook, Twitter or other social media channels as well as communications via our cell phones such as texting or email.

✔ Standard 1.07(i): social workers should not discuss confidential information in any setting unless privacy can be ensured.

   We all know there is no such thing as privacy on a social media site or the Internet. Comments can be forwarded or copied, posts and pictures can be found on search engines years after the initial publication, and archival systems save information even after you delete it. Always consider the image you are portraying by the photos and comments you post. Understand how privacy settings work and review them regularly. Refrain from providing too much personal information such as your home address or full birth date. Don’t post in advance when you plan to be on vacation or away from home for an extended period of time. Be sure to project the image you want potential faculty members, future employers, advisors and friends to know you by.

✔ Standard 4.03 states that “social workers should not permit their private conduct to interfere with their ability to fulfill their professional responsibilities.

   Social media channels provide an excellent means to build community; however, as you navigate these channels, do no harm to yourself, your field site, your clients, the Division of Social Work or to the social work profession in the process. Do not pretend to be someone else or hide your identity when using social media. Be clear if you are sharing personal views and use good judgment regarding sensitive issues. Verify information before you post it, correct mistakes in a timely manner, and be aware of legal liability issues such as copyright infringement, defamation, and posting proprietary information.

Also, see http://www.socialworkers.org/practice/standards/naswtechnologystandards.pdf for additional standards regarding social media policies provided by NASW and ASWB.

What should I do next?
Take some time to review these guidelines with your Agency Field Instructor and seek to identify other ethical standards that are applicable in your practice setting. As a social work student, you are continually developing a professional identity and you must be cognizant that your private world has a greater likelihood of becoming public when using social media. Agency Field Instructors, colleagues, and even clients may have access to information via the Internet that you would otherwise limit to your friends and families, so we encourage you to consider the personal versus professional role of social media in your life and your field setting.

Tips to maintain a positive online presence:

1. **Clean up your digital dirt.** Remove any pictures, content, or links that can send the wrong message to employers. Ask yourself, "How do I show up in the world?" Try a Google search on yourself periodically to see what comes up.

2. **Remember the internet is public domain.** They are called social networking sites for a reason. It is becoming commonplace for employers to do an online search for candidates before making job offers. A good guideline is to not put anything out on a social networking site that you would not want to see on the front page of the paper.

3. **Use social networking sites to your advantage.** Maintain your online profile by portraying an image consistent with how you want to be perceived. Your profile is a way for you to demonstrate to employers your communication skills using proper grammar and spelling. Convey your professional image by choosing your photo and your screen name carefully. Include great references on your profile from a variety of different people to "paint" a positive professional image of yourself.

4. **Using social networking sites may not be for you.** If using social media tools is not fun for you and it just feels like more work, that is O.K. These tools are not for everyone. If you are just going through the motions of putting something out there to have a presence, do not do it. Your lack of enthusiasm and lack of passion will show through, and that is NOT the image you want to portray. Your time and energy will serve you better to focus on areas that you believe in.

5. **Be thoughtful about your posts.** There is no expectation of privacy when using social media. Consider what could happen if a post becomes widely known and how that may reflect on both you, the School of Social Work, the practicum agency and/or the University. Search engines can turn up posts years after they are created, and comments can be forwarded or copied. If you wouldn’t say it at a conference or to a member of the media, consider whether you should post it online. If you are unsure about posting something or responding to a comment, seek advice from your supervisor, Field Instructor, Faculty Field Liaison, Undergraduate Field Coordinator or the Field Director.

*Based in part on guidelines from UNC Chapel Hill, & SJSU*
