What is the CVV2/CID Number ?

CVV2 is a new verification method established by credit card companies to minimize fraud and identity theft during internet transactions. It consists of requiring a card holder to enter the CVV2 number during the transaction to verify that the card is on hand.

If you have Visa, MasterCard or Discover, the CVV2 Number will be the last 3 digit numbers printed on the signature panel.

For American Express Card, the CVV2 Number is the 4 digit number printed on middle right border of the card as shown in the picture.
