*“Always the beautiful answer who
asks a more beautiful question.”*

~EE Cummings

O V E R V I E W

GPHD-125: Visual Principles I is an introduction to the language and perception of design. Elements of art and their relationship to the applied art of type, visual organization, and message. Design for advertising, marketing, and business. Ideation, creative thinking methods, thumbnails, storyboarding and presentational techniques. Computer integration with a variety of applications and techniques. Prerequisites: acceptance into GPHD upper division. Corequisites: GPHD-120 and GPHD-122.

O B J E C T I V E S

In this course, the students will:

- learn to pose more beautiful questions in the solving a design problem
- learn to strategically investigate the context of a design problem
- learn to effectively edit a design solution in aesthetics, organization and message
- introduce *systems thinking* in the solving of a design problem
- explore the use of *literary tools* in solving a design problem
- explore the role of *representation, symbol, and abstraction* in design
- further hone compositional skills covered in GPHD-25/30
- further hone symbol and color skills covered in GPHD-30
- elaborate on process and presentation skills in design
- reinforce the typography theory and skills learned in GPHD-120

H O U R S

Class Hours Sec 1 – MW 12:00pm–2:30pm; KDM-166 and KDM-113

 Sec 2 – TR 9:00am–11:30am / KDM-166 and KDM-113

Office Hours MW 11:00am–11:45am; TR 8:00am–8:45am MRP-5011

M A T E R I A L S

- Analog
- two Verithin pencils (red)
 - one pencil sharpener
 - two pads of 3x3 inch Post-Its (yellow)
 - one deck of one hundred white 3x5 cards (no lines on one side)
 - black drawing pens in various sizes (sharpie, micron, etc)
 - eight 20 x 30 black matte boards (with black core)
- Digital
- laptop with Adobe Creative Suite (AI, PS, ID)
 - access to a camera, scanner, ink jet printer

A More Beautiful Question by Warren Berger

ISBN-10: 1620401452 / ISBN-13: 978-1620401453

Attendance

Roll will be taken at the beginning of every class. If a student is consistently late or leaves early, he/she will be marked absent. If a student walks in late, it is that student's responsibility to approach the instructor after class to let him know. Watch the instructor log your name on the roll to be sure late attendance has been recorded. Students missing class are responsible for assignments and notes given during the missed period (swap phone numbers with as many peers as you can, do not ask the instructor). Students are still responsible for getting their work in—even if they are absent. Every absence after the third absence will take one letter grade off the final semester grade earned (i.e., an A- would become a B-). Three lates equal one absence.

Participation

In GPHD 125, the student is expected to be self-motivated and a self-starter. Part of a student's grade will be a reflection of his/her work ethic in, as well as out of class. Come prepared with course supplies and finished homework and be ready to participate in class. This is the advanced symbol-color course in the major; students should show in their work ethic and initiative that they are equal to the task.

Academic Dishonesty

Cheating is unacceptable at CSUS. The instructor will be vigilant in monitoring the original quality of work done in this class. Review the university policy at <https://www.csus.edu/umannual/student/stu-0100.htm>.

Drops

Students are expected to know the university's policy on dropping classes. Drops requested beyond the usual deadline require a 'serious and compelling reason.' Refer to the official drop policy found in the university catalog for more details.

Deadlines / Make-Ups

All work is due on the date specified at the onset of the assignment. Take deadlines very seriously. If you cannot make it to class when there is a deadline, make arrangements to get the homework or project to class on time. Assignments (project phases, homework, in-class quickfires, quizzes and journal installments) must be turned in or pinned up at the beginning of period they're due. **Late or emailed work will NOT receive credit.**

In the case of a final deliverable (viz., final pieces and process binders for the poster project or ID project), submissions will be marked down 10% if they arrive late to class, 20% for each day they are late—this includes weekends, so if you miss a Wednesday/Thursday deliverable, get it in before the weekend to get some credit.

Practical Precautions

Students are to take proper measures to protect their work when storing and transporting it. Put course supplies, works-in-progress, and finished projects in secure places. Use packing material and a sturdy portfolio case (or box) to transport fragile pieces to and from campus. Lockers are available in Kadema-166 and in the Art Department breezeway. Bring a reliable lock if using these storage areas. Stolen or damaged projects will not be excused. When dealing with digital files: save early and save often. Back up all files, whether done at home or in the lab. Make at least two backups of everything you do, and save generations of your work. Corrupt files and defective drives will not be excused.

Decorum

Professional etiquette is expected when working in the class. Profanity, vulgar language and off-colored humor are unacceptable. Students are to demonstrate respectful speech and conduct at all times. No messaging, emailing or surfing while class is in session. Keep all cell phones set on silent. In short, basic courtesy applies.

Digital Resources & Tools

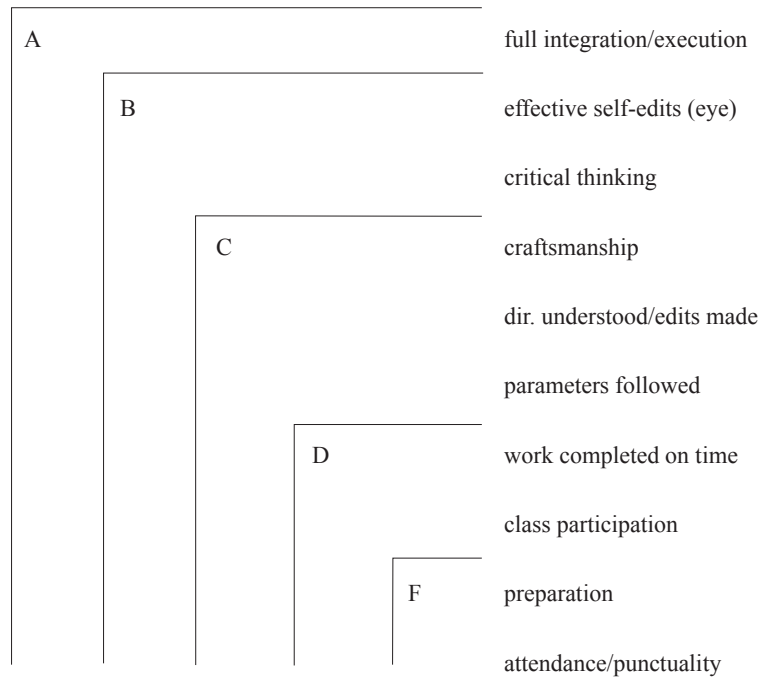

On my faculty web site you will find the course syllabus and readings. Print out needed readings as requested by the instructor from week to week. Laptops and smart devices will only be used in class when directed by the instructor.

Extra Credit

Those interested in earning extra credit may do so by attending a GRIDS field trip, or an approved lecture (ask me) before finals week. Students who turn in one typed page reflection the week following the event will earn 10 extra credit points. A maximum of 20 points can be earned in extra credit.

G R A D I N G

Grades in 125 will be based on class activities/exercises, quizzes, and projects. The breakdown of design project grades will be based on the following merits:

The rubric above shows the steps of proficiency equal to each letter grade. Note that the higher the grade climbs in the rubric, the more skills the student must demonstrate in the process. It is important to understand the linear quality of the tiers above: students must master all skill levels bracketed within any particular grade. For example, a student who demonstrates proficiency in critical thinking (a B level trait), but fails to follow given parameters of the assignment (a C level trait), will earn a final grade of C+ on the assignment. Just as a chain is no stronger than its weakest link, a student must show a proficiency in all traits corresponding to the grade they desire. What follows is a more detailed description of each merit category.

Attendance/Punctuality

Refer to the Attendance clause outlined in the *Policies* section of this syllabus.

Preparation

To be prepared for class simply means coming with the required tools and materials. These are students who are ready to participate when they come to class.

Class Participation

Participating students are those who come to class on time, fully prepared to work, and actually do meaningful work in class. Though in typical classes, participation entails a student's vocal involvement, in the context of a graphic design studio, those who truly participate are those who are actively engaged in perfecting their craft through the duration of the class meeting. Traits of good participation include staying on task during class activities, paying attention when instruction is being given, and asking questions when a concept or task is not understood. Full participants bring weekly class journal installments and are engaged in class exercises and activities.

Work Completed On Time

This is a big one. It is key that assigned homework be completed before a student comes to class. If work is unfinished, a student's progress cannot be accurately assessed. This not only results in a phase/project being turned in late, but it also hampers the student's involvement in an class exercise (especially one that hinges on previous work being completed). Come to class not only with needed tools and materials; come with finished homework that reflects an honest effort. This, along with the aforementioned three traits, are the minimum needed to secure a D+ grade.

Parameters Followed

A student must show that he/she can adhere to basic project parameters. Though in this class setting, it may mean using specifically prescribed materials or sizing a piece to an exact dimension, such a skill has broader application when working in the real world (i.e., staying within a limited budget, working in x number of colors, etc). A student must demonstrate that set guidelines can be followed.

Direction Understood / Edits Made

Beyond given parameters, a student must show that he/she can understand and take art direction. This involves the ability to listen and adapt to changing conditions. The student must not only show that art direction was understood, but also that it was legitimately explored in documented edits. Taking direction and following parameters are basic to a C grade in this course.

Craftsmanship

Craft refers to the clean execution of a design phase or end product. In process, it describes work that is aesthetically appropriate for a given stage, and in finished pieces, it refers to the expert handling of the tools and materials—to the point that their role becomes transparent to the audience (this includes *digital* work). True craft demonstrates a commitment to high visual standards. Well-made projects are devoid of dings, dirt, smudges, fingerprints, mis-cuts, errant rules, uneven mounting, sloppy adhesive jobs and low-quality materials. A student must gain proficiency in this skill to earn a C+ or better in this course.

Critical Thinking

Once the aforementioned production skills are in place, a student further distinguishes his/her work by the quality of thinking that goes into it. Critical thought goes beyond simply noting the lecture or doing what the instructor directs. It involves a Socratic approach to design problem solving and opens the mind up to original thought. Students operating at this level are mindful of all of the spheres of the Design Model and the many variables that affect the design process. They not only think innovatively, but document it in their notes and mockups.

Effective Self-Edits (Eye)

Individuals who go beyond given art direction and explore meaningful, aesthetically discriminating edits, show they are self-motivated problem solvers. These are they who take critical thinking and apply it in their editing. This is the type of student who goes beyond the minimum effort required in an assignment and explores additional options intelligently. The students who make effective self-edits show an eye for design and require less art direction over time. This is where proficient design begins—where grades range between B and B+.

Full Integration

When all of the aforementioned skills combine, the student begins to weave his/her designs into seamless gestalts. Projects that are 1) fully integrated in organization, aesthetics and meaning, 2) designed with systems thinking over different formats and media, and 3) are executed with sound craftsmanship, will have realized their potential. Students operating at this level generate portfolio-worthy pieces and perform like high-level designers. Such work warrants a solid A grade.

Final Grades

The final evaluation of a semester grade will involve the percentage totals of two areas: *Knowledge/Skill* and *Design Application*. Knowledge/Skill points account for quiz, quickfire, checked homework, and journal points earned in class. Design Application accounts for the major projects of the course and includes process binders and culminating deliverables. The following items constitute the workload in 125:

Knowledge/Skill

Item	Description	Points Possible
<i>Classwork</i>	homework + quickfires	160
<i>Quizzes</i>	3 quizzes (open notes)	30
<i>Journaling</i>	6 single-page installments	60
Subtotal		250

Design Application

Item	Description	Points Possible
<i>1 ~ Posters Project</i>	psa campaign	200
<i>2 ~ ID Project</i>	system + branding	300
<i>3 ~ ID Presentation</i>	team boards/presentation	100
Subtotal		600

Knowledge/Skill (250) + Design Application (600) = 850 Points Possible

Final grade = [K/S points earned + DA points earned + extra credit earned] ÷ 850

Final grades will break down as follows: 91-100%=A range, 81-89%=B range, 71-79%=C range, 61-69%=D range, 59% and below=F range. When a grade average falls between two ranges, the instructor reserves the right to grade up or down depending on his assessment of the student’s overall class participation and effort.

F I E L D T R I P

Both sections of GPHD-125 will be taking a field trip on Saturday, October 6th. We will be visiting the Exploratorium in San Francisco as part of our culminating semester project. This is a required activity. If you cannot make the date of the field trip, you will need to make other arrangements to visit the museum beforehand. Let me know in advance if this is the case, and I will give your further instructions. The *Field Trip Waiver of Liability* form is attached to this syllabus and must be completed filled out and submitted to me before the field trip.

Expense-wise, museum entry will be approximately \$24.95 per student (bring your student ID card); in addition, there will be costs for parking and tolls. Food is extra. More field trip details will be given as the date draws closer.

Field Trip Waiver of Liability / Hold Harmless Agreement

I, the undersigned participant, am requesting participation in

College/Department: Department of Design

Activity: SF Exploratorium Field Trip: Pier 15, The Embarcadero & Green St., San Francisco, CA 94111

That begins on 10/06/2018 and ends on 10/06/2018 all which are hereinafter referred to as the activity.

In consideration of my participation in the activity, I hereby waive all claims or causes of action against the State of California, the Regents of the University of California, **California State University, Sacramento**, its auxiliary organizations, and the officers, directors, employees and agents of all of them, all of which are collectively hereinafter referred to as a State, arising out of my participation in the activity and hereby release, hold harmless, and discharge the State from all liability in connection therewith.

Knowing, understanding, and fully appreciating all possible risks, I hereby expressly, voluntarily, and willingly assume all risks and dangers associated with my participation in this activity. Some of the risks and dangers are listed below. I understand this list is not exhaustive. Common risks include: Travel to and from home and activity meeting location, overnight stay, food poisoning, theft, car accident, pedestrian accident, tripping, slipping, falling, etc.

Mode of Travel (e.g state/personal vehicle, airplane): Students will individually transport themselves through personal vehicles.

In addition, I have been advised to obtain personal medical coverage aside from the coverage provided by the Student Health Services of **California State University, Sacramento**. Although I may obtain some medical care from the University Student Health Center, I understand that such care is limited and that I will have full medical coverage from my participation only if I obtain such coverage on my own. Furthermore, I agree to use my personal medical insurance as a primary medical coverage payment if accident or injury occurs.

I have read this waiver/release and understand the terms used in it and their legal significance. This waiver and release is freely and voluntarily given with the understanding that the right to legal recourse against the State is, knowingly, given up in return for allowing my participation in the activity. My signature on this document is intended to bind not only myself but also my successors, heirs, representatives, administrators, and assignees.
