Subject: First Meeting Overview (from Tuesday, Feb 5).

Hey Chem Club!

Hope everyone is off to a good start this semester! Here are a couple of events to keep in mind as you plan out the coming months:

Bowling- THIS FRIDAY, **February 8th**, Chem Club will be going **bowling at Country Club Lanes!** We foot the bill, so if you would like to attend, please let us know in ASAP so we can reserve the correct number of lanes. (Even those who do not want to bowl are welcome to come and hang out). We will be meeting **at the**

bowling alley at 7pm, or, if you need a ride, carpool will meet around 6:40 in the first floor lobby area of Sequoia.

Goggle Sales- Please come drop by the 4th floor stockroom to **help us sell goggles!** We will be selling them actively until the end of next week (Friday, February 15th).

T-Shirt Designs- We will be making club t-shirts again this semester! Have any awesome ideas for the shirts? Bring them to the next meeting or e-mail them to us! These shirts will be available for sale to all; so designs which can be appreciated by non-scientists are welcome as well. (But of course, inside jokes are fun too!) Either way, **share any ideas that you have!**

Science Fair Judge- On **February 26th and 27th**, the Rocklin Middle/High School Science Fair is looking for judges! The judging will happen during the day in sessions from **8:30a-10:10a, 10:15a-12:00p, 1p-2:45p on both days** at **Western Sierra Collegiate Academy** in Rocklin. If you can attend any of these time slots please **email Stuart Hay** at sh2672@saclink.csus.edu. Volunteers are given criteria to evaluate students and their projects. Projects vary in topic “from chemistry and physics to biology to psychology and environmental science studies”.

Bret Harte Elementary School Visit- Friday, **March 15th**, the students of Bret Harte Elementary will be visiting our campus. We intend to perform demo experiments, as well as allow them to do some basic, hands-on experiments. The event will take place on campus in one of our general Chemistry labs (SQU 416 or 418). **We need experiment ideas** though! If you have any ideas for experiments (must be simple-ish experiments which do not use dangerous chemicals), we would love to hear them. Either bring them to the next meeting or email us!

Tutoring- Every other week, Chem Club hosts tutoring. This is held at the same time as our meetings (5:30pm), but on the off-weeks when we do not have club meetings. We have students who are available to help in Chemistry, Biology, Math, and Physics. Feel free to drop by and ask questions, or even to help out or study. Spread the word! Fliers will be posted around Sequoia for our **next session on Tuesday, February 12th**.

Please be sure to bookmark our event calendar: <http://www.csus.edu/org/chemclub/Activities.htm>

And check us out on Facebook: <http://www.facebook.com/groups/8546618014/>

Thanks everyone and good luck this semester!

PS. Welcome to our new members! We're excited to have you on board!
