

## Volcanoes on Mars

This image shows volcanoes (red triangles) on Mars thought to have been active in the last 20 to 200 million years (data from [www.psrcd.hawaii.edu/May11/Mars\\_volc\\_timeline.html](http://www.psrcd.hawaii.edu/May11/Mars_volc_timeline.html) and [http://volcano.oregonstate.edu/oldroot/volcanoes/planet\\_volcano/mars/Overview.html](http://volcano.oregonstate.edu/oldroot/volcanoes/planet_volcano/mars/Overview.html)).
