

Analysis #2. Due 9/28 in class

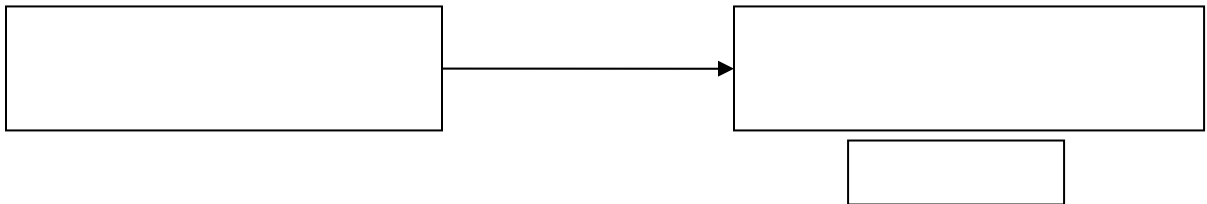

Directions: Identify each of the following as an argument or an explanation, and rationally reconstruct them exactly as we have been doing in class, this time including principles. This assignment is worth 10 points. This analysis will be graded under the assumption that you have studied the correct answers to Analysis 1. Type answers in the text boxes provided. Untyped answers will be downgraded 10%. (Note: you will not be able to type in the PDF version of this document. You need to use MS Word.)

1. Ricardo doesn't eat tuna sandwiches because he doesn't like bread.

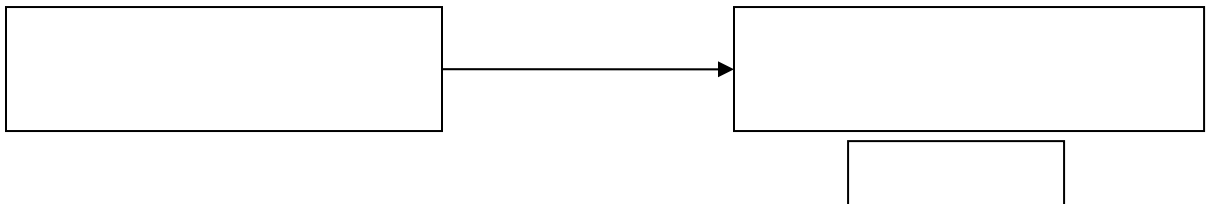

P:

2. You have to help him now because you promised you would.

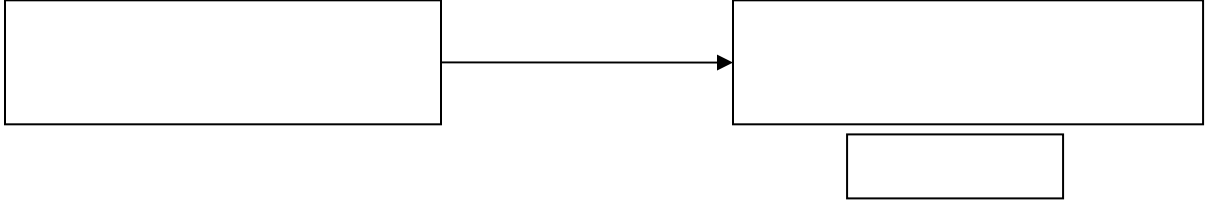

P:

3. Ziggy was arrested for talking on his cell phone while driving.

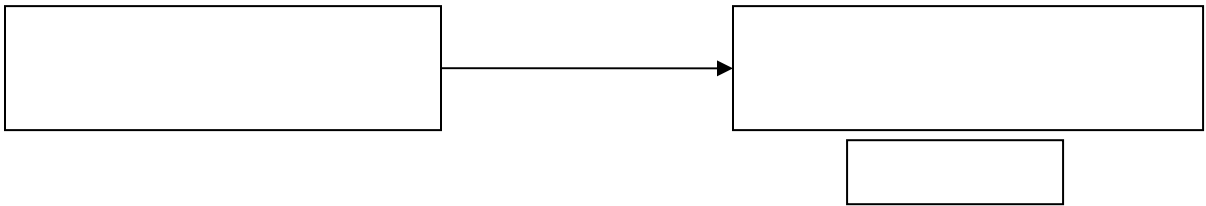

P:

4. The reason I think I didn't evolve from apes is that I can reason well and apes can't reason at all.

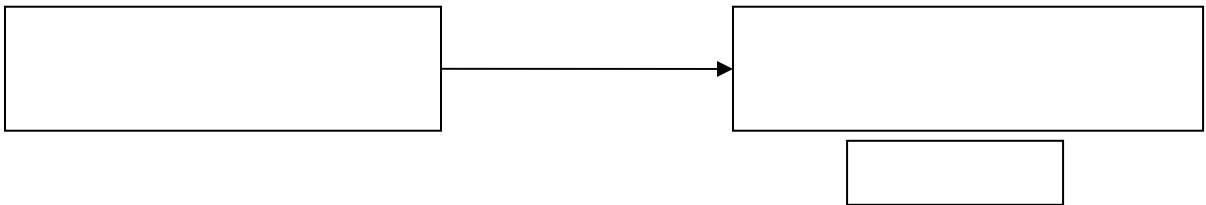

P:

5. I think the cops tasered the student because he had halitosis.

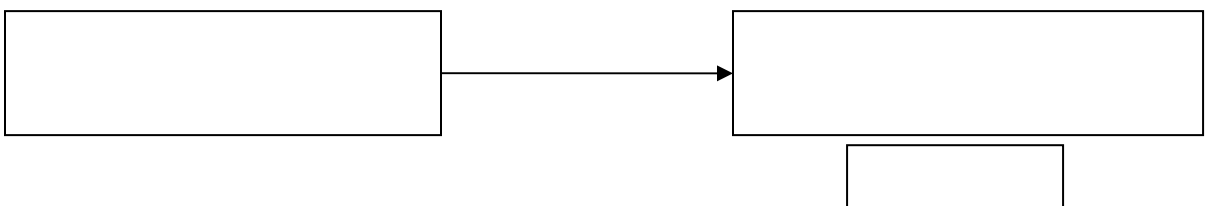

P:

6. Most people will just believe what they're told. It saves a lot of energy.

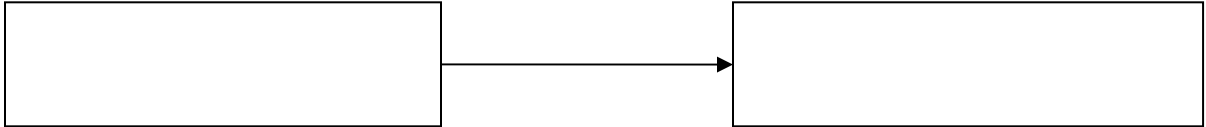

P:

7. I think it's ok to cheat when everyone else is cheating, too. But I don't do it because it still makes me feel guilty.

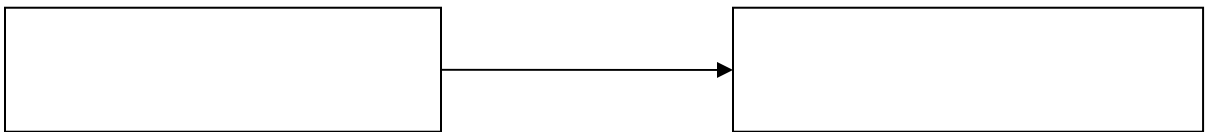

P:

8. I don't believe in instantaneous velocity for the same reason I don't believe in square circles. The idea just doesn't make any sense.

P:

9. If I could go back in time I would probably want to kill my great grandpa Hitler. But I wouldn't because that means I'd never be born.

P:

10. Basil has asked Barbara to go out with him about 100 times and she's always said no. I would think that means she's due to say yes pretty soon.

P:
