| College of Arts and Letters GPHD 10, Section 2 Lecturer: Scott Olling Spring 2004 solling@csus.edu Project #6: Step and repeat Due: Wednesday, April 21 Project description: This project asks you to use InDesign in concert with Illustrator and Photoshop to create a pattern quickly with Step and Repeat. The three resulting pages are saved as a PDF for distribution. Instructions: a.) Create a three pageInDesign file. b.) Save your file with the class number, the assignment number and your initial in the document title. c.) Use InDesign to create the following graphics for page 1: • The boxes = .5" square. • The boxes = .5" square. • The gray box = 30% Black. • No stroke on the boxes. • The 'X" and the "O" are drawn with the Line and Oval tools and have a thickness of 4 points. • Start from 0"x 0" and fill the page. d.) Use Illustrator to create two graphics for page 2: • The two graphics placed inside the boxes should originate from Illustrator. Choose objects or path operations not avail- able in InDesign. e Place the items in InDesign. Use InDesing for the following: • The two graphics for page 3. • The boxes = 1" square. • The gray box = 30% Black. • No stroke on the boxes. • The gray box = 30% Black. • No stroke on the boxes. |
