Course Description

Examines argument concerning the nature of reality. Representative topics include: substance, space, time, God, free will, determinism, identity, universals. Emphasis is on contemporary formulations. **Prerequisite:** 6 units in philosophy or instructor permission. **Units:** 3.0.

Course Objectives

- The course is designed to give a systematic introduction to philosophical problems that are *metaphysical*, to show what distinguishes metaphysical problems from other philosophical problems.
- We will then investigate a restricted sampling of metaphysical problems under active investigation in the present.
- This investigation will involve study of solutions by contemporary philosophers.
- Finally, the course will require some metaphysical investigation by the student, as well as some writing.

Students will be expected to:

- Demonstrate a developed ability to read and understand contemporary philosophical texts.

- Evaluate critically the concepts and arguments contained in the texts;
- Write argumentative papers applying philosophical concepts and reasoning to issues in metaphysics;
- Students will demonstrate their achievement of the course objectives and expectations through:
 - Reading comprehension quizzes on each reading assignment;
 - Exams which test for a deeper understanding of metaphysical issues, as well as of the arguments for or against the different sides; students will show their understanding via essay answers;
 - Participation in in-class and online discussion;
 - Composition of analytic critical essays on contemporary works in metaphysics.

Course Delivery

While PHIL 181 will be in most ways a standard lecture/discussion class, it will be ‘web-assisted.’ That is, we will be using some features of the SacCT course management system.

SacCT 9.1 is a program designed for on-line college courses. Among other things, it serves as a location for course material, lecture notes, tests, papers, and discussions.

I will make important course content available, including lecture notes and other supplementary material.

You will be taking quizzes and exams, participating in discussions, and submitting papers through SacCT 9.1. In addition, you may communicate with me, as well as with other students in the class, through the SacCT Mail facility.

SacCT has an interesting new feature called ‘Smarthinking.’ Since I grade on writing, you might want to submit your essays to get some evaluation before submitting them to me. (I’m not requiring it.) Be aware, though, that it can take twenty-four hours to get an evaluation, so plan accordingly.

Access the Course

You will use your Saalink account to log into the course from the [SacCT Login page](#).

If you do not have a Saalink account yet, please refer to the [Get a Saalink Account](#) page to create a saalink account online.

To get started using SacCT, visit the [Student Resources](#) webpage, where you can access Online Tutorials, Frequently Asked Questions, and other help resources.

Communications

The course will use the communication tools built into SacCT:

- Announcements: It’s a good idea to check for announcements from time to time during the semester
- Mail: You may send me (or a classmate) a message via the ‘Mail’ function.
- Discussions: You will be expected to participate in discussions, whether in class or through the ‘Discussions’ function in SacCT.
- Calendar: Exams and due dates for papers will all appear in the Calendar.

Technical Requirements

To access a course in SacCT 9.1 you will need access to the internet and an internet browser (Internet Explorer, Firefox (not recommended), Safari, Chrome). To ensure that you are using a supported browser and have required plug-ins please run the Check Browser from your SacCT course. Refer to the [SacCT Browser Settings Guide](#) page for instructions.

For help or to report a problem with SacCT 9.1 you can:

- Visit the [Student SacCT FAQ's webpage](#)
- Submit a [SacCT Problem Form](#)
- Contact the University Help Desk at (916) 278-7337

Work for the Course

1. Quizzes on Reading Assignments (22 pts)

You will be responsible for the readings assigned for a particular class day. While you will be responsible for the whole reading, I may indicate in the 'Course Schedule' (below) that you should pay particular attention to some part of it. As a result, it may happen that other parts will not be treated in class. You will be responsible for them anyway, and I will respond to questions regarding them.

The quiz for a given reading assignment must be taken by the beginning of the class period for which it is assigned.

I will open the window for the reading assignment a week in advance; the window will close at class time.

2. Three Exams (15 pts each) Exams will be a combination of objective questions plus some short essays. The questions will be on the readings, lectures, and discussions.
3. Two analytical essays (15 pts each) on selected readings.
4. Discussion Contributions (3 pts)
You will be expected to make regular contributions to discussion, either in the class period itself or in the online 'Discussion' conducted in SacCT.

Assignment Submission Instructions

Analytical Essays

Analytical Essays will be submitted in SacCT. In writing the essay, follow the instructions for analytical essays found in the Philosophy Department website. Look under "Guidance" for "[Writing Guidelines](#)."

You will find another document there that will help, since it gives you some hints as to what we look for. It's called "[Grading Standards](#)."

In addition, look carefully at the rubric by which the essays will be graded. The rubric can be found on the page for each writing assignment. Click on the box "View Rubric." Keep it in mind as you write.

Papers will be submitted in SacCT. To submit an essay in SacCT:

- Enter [SacCT](#).
- Open the main page for PHIL 181.
- On the Course Menu select ‘Assignments’;
- Open the correct assignment; you will see the text of the assignment itself as well as the due date and time.
- Clicking the little triangle next to “*Type Submission*” opens a box in which you can write your essay. (You’ll probably want to produce it in your own word processing software first and then copy it in. Be sure to revise it once you do, since you may lose some editing.)
- Once you are satisfied with how your essay looks in that box, click ‘Submit’ (Important);
- A success message should appear: “This assignment is complete. Review the submission history.”
- Late papers will be lowered a grade increment for every day past the due date. I leave the window open for submitting a paper for five days after its due date. After that the paper will not be accepted.

Discussions

- Philosophy involves discussion and argument. It’s the best way to explore philosophical questions, the best way to learn how to philosophize. So I will expect you to participate in the discussions. You will either receive full credit for participation (10%) or no credit, depending on how seriously you take your responsibility to make contributions. If I notice that you are not participating, I will let you know that I expect more.
- To participate in an online discussion:
 - Enter SacCT;
 - Open ‘Discussions’ (under ‘Course Tools’ on the left margin);
 - Click on one of the topics; you will be able to read the other contributions;
 - You can contribute to the discussion by clicking ‘Create Message’.

Online Quizzes

Reading Quizzes: There will be a reading quiz on every assignment. A reading quiz will consist of five to ten multiple-choice questions designed so that a careful reader should be able to answer them. The quiz will ‘open’ a week before it is due; it will be due at the beginning of the first class period in which the reading will be discussed.

To take a reading quiz in SacCT:

Enter [SacCT](#).

- Open the main page for PHIL 181;
- Open ‘Assessments’ (under ‘Course Tools’ on the left margin of the main page);
- Answer the questions (make sure you ‘submit’ each question as well as the entire exam).

You will have only one chance to take the quiz, so check your answers before submitting.

Exams: The exam window will open a week before it is due. You must take the exam during that time.

To take an exam in SacCT, follow the instructions for taking a reading quiz. The difference between an exam and a quiz will be the time constraints. You will have 75 minutes to take the midterm, two hours (120 minutes) to take the final. In addition, there will be some essay questions in the exams.

Grading

Exams: Exams will receive numerical grades; your score will be ‘out of’ 100.

Analytical Essays: Each essay will receive a numerical grade out of 20. The basis for the grade rubric will be found in the page for the essay in SacCT.

Essay Score	Grade Equivalent
15-13.5	A
13.49-11.5	B
10.49-8.5	C
8.49-7.0	D
6.9-	F

Reading Quizzes: Reading quizzes will receive a grade of **1** (full credit), **.5** (inadequate comprehension), or **0** (not taken).

Discussion: Discussion participation will receive either complete credit (100) or none (0). Periodically, I will post progress reports on your participation in the Gradebook. These progress reports are indications of what you would get at the end of the semester if you continue your present course. That grade does not ‘count’; it’s just information.

Final Grade: The final grade for the course will be determined by the weighted sum of the exams, quizzes, discussion, and papers.

Grading Criteria

Scaled Score	Letter Equivalent
100-94	A
93-92	A-
91-90	B+
89-84	B
83-82	B-
81-80	C+
79-74	C
73-72	C-
71-70	D+
69-64	D

63-62	D-
61-	F

Viewing Grades in SacCT

For reading quizzes you will be able to see your score as soon as you have submitted your quiz. For exams, and papers I will post the grades as soon as I have finished grading them. You can see your grades during the semester by going to 'MyGrades' in SacCT.

Course Policies

Attendance

I expect attendance at every class meeting. If for some excellent reason you cannot make class, let me know – preferably in advance. If this is impossible, let me know by 5:00 on the day you miss, preferably by an e-mail message within SacCT. I will lower you a grade increment for every absence in which you fail to contact me the same day.

Class meetings will begin at 1:30 pm with a roll. Be on time. Anticipate. Excuses don't cut it: I will treat a pattern of late arrival as an unexcused absence.

I expect attention to the material during class periods. If there is a class discussion, I will serve as moderator; please wait to be recognized before making a contribution.

If you wish to ask a question, answer a question, or make a contribution to the class, please ask to be recognized. There is no excuse for conducting a private discussion during class time. I will treat a pattern of talking in class as an unexcused absence.

Make-Up Exams and Quizzes

Since you may take exams and quizzes at your convenience, there will be consequences for missing the deadline – whatever the circumstances.

1 point off exam score ($n = 10$), .25 off quiz grade ($n = 1$), for every day late.

The opening and due dates and times will be listed in the Calendar.

If your internet connection is unreliable, or you suspect it may be unreliable, plan to take the exam in one of the labs on campus.

Late Work

For essays, I will leave the assignment window open for five days after the due date. The grade will be lowered a point for every day past the deadline.

University Policies

Academic Honesty

Students are expected to be familiar with the University's Academic Honesty, Policy & Procedures. The policy on Academic Honesty and other information regarding student conduct can be accessed from the [University Policy Manual](#).

The University has very helpful information on plagiarism at the [Library's Plagiarism Website](#).

Cheating on an assignment will be treated as a missed assignment. I reserve the right, after following the academic dishonesty procedures, to report it to the Student Conduct Officer.

Originality is an over-rated virtue in undergraduate writing, ranking well below unity, clarity, and cogency of argument. You can borrow other people's ideas and arguments all you like. You just need to *cite* them when you do. Use any method of citation you find comfortable and convenient. (I like MLA myself.) Don't borrow their *words*: you mustn't submit an essay consisting of a bunch of quotations. Since you can borrow ideas, you have no excuse for plagiarism except laziness.

Reasonable Accommodation Policy

If you have a disability and require accommodations, you need to provide disability documentation to Services for Students with Disabilities (SSWD). For more information please visit the [SSWD website](#) (<http://www.csus.edu/sswd/>). They are located in Lassen Hall 1008 and can be contacted by phone at (916) 278-6955 (Voice) (916) 278-7239 (TDD only) or via email at sswd@csus.edu.

Please discuss your accommodation needs with me after early in the semester – within the first week. It is difficult and time-consuming to make certain accommodations in SacCT. If you wait until the first quiz or paper is due to announce your disability it may simply not be *humanly* possible to make the accommodation. You will then just have to do the best you can.

A tendency toward procrastination is not a recognized disability.

University Resources

The CSUS Writing Center

The Writing Center provides encouraging, focused, and non-judgmental one-to-one tutorials in writing. Their tutors can help with writing at all points in the process, from initial planning and organizing through developing and revising a paper. You can bring the assignment to them for help.

Sac State Library

The Sac State Library's webpage is <http://library.csus.edu>.

To find a book or periodical, click on "Eureka: Library Catalogue" under "Resources and Collections" or go directly to <http://eureka.lib.csus.edu/>. Or you can access 'OneSearch' through your MySacState portal.

For a largely undergraduate institution, the Sac State library's holdings and resources in philosophy are pretty good.

Student Computing Labs

To access SacCT from campus, or use any of the other campus online resources, you can use the IRT managed student computer labs on campus. See [University Learning Labs Website](#) for information about locations, hours, and resources available.
