

BIO 132 Neurophysiology

Extra Credit Assignment

15 points

(Due the day of the Final)

Write a 1-2 page essay on the following topic:

“Is there a physiological basis for the therapeutic use of acupuncture?”

- Your audience for this essay should be your non-science major friends.
- Be sure to include background information about acupuncture and how it is used therapeutically.
- Do not plagiarize material. Either cite other people’s words or summarize what you find in your own words.
- There is no “right” answer, but you should make a sound argument for whichever position you choose.
