	Connect	Cancel Help	Options <<	

Type in <rhea.ecs.csus.edu> into the server area and <ECS\username> as shown above.

Select user resources tab and more button at bottom of page to add local resources and drives.

Note- They must be attached/plugged in to be found and added before connecting to work.

See next two screen captures for setup.

Select Connect to open terminal and select your user logon icon and enter your ECS logon password.

You should now be connected and able access available programs.

Note- I was told they have only so many licenses for programs so please log out and release for others when done.
