

As we begin this new year and new semester, we wanted to introduce campus to some new (and returning) faces in their new, permanent [IRT leadership](#) roles.

Nathan Zierfuss-Hubbard | *Chief Information Security Officer (CISO)*

Nathan arrives to us from CSU Stanislaus to now lead the IRT Information Security Office. Most recently, he served as Information Security Officer, and as Chief Information Security Officer at the University of Alaska where he was also an adjunct faculty member. His wide expertise includes IT program development, policy and governance, regulatory and information security strategy, and identity management. He holds a BS in Computer Science from the University of Alaska Fairbanks, and an MBA from the University of Alaska Southeast.

Kelli Hunt | *Director, Customer Services*

Meet Kelli, our new leader for the IRT Service Desk team! Kelli brings more than 25 years of experience in strategic and creative thought leadership, collaborative and user-centric customer service, enterprise change management and process improvements, and data analytics to Sacramento State's dedicated IT service team. She mostly recently served as a strategic project manager for Ellit Groups, a consultancy delivering IT solutions in healthcare, and at Sutter Health as a compliance program manager. Kelli is also Made at Sac State, holding a BS in Business Administration.

Matt Kay | *Director, Academic Technology Services (ATS)*

Matt brings trusted, innovative, and steady leadership to the IRT ATS and Learning Space Services teams. Matt is passionate about coaching faculty, staff, and students to optimally use academic technology tools, is a strong supporter of mixed pedagogies, and champions accessibility for all. A teacher and life-long learner, Matt has taught online classes in computer science and graduate and professional studies. Previously, he served as an Information Technology Consultant and as interim Director of the ATS. Matt holds a BS in Computer Science and an MS in Education.

Nick Sladojevic | *Senior Director, Infrastructure & Operations*

Under Nick's leadership, IRT is synergizing campus IT system operations, identity management, and information security through enhanced system security, change controls, and service offerings. Nick provides direction, oversight, and strategy for a team of ten and operating budget of \$3M supporting and innovating critical IT infrastructure, systems, and platforms. Nick holds a BS in Business Administration, Management & Information Systems, and including Sacramento State, has provided technology leadership for various industries for nearly 30 years.
