§ Beginning Fall 2006, FTES for Classified Grads = Attempted Units/12; for others, Attempted Units/15. Before Fall 2006, FTES = Attempted Units/15.

1 Average Attempted Unit Load = Attempted Units/Headcount. (Attempted Units not shown in this table.)

2 Annual Average FTES is calculated by adding Fall and Spring term headcount/total FTES for both terms.
