

Transportation Advisory Committee (TAC) Charge

Membership for faculty, staff and community members shall be for a period of three (3) years, staggered to insure continuity. Students shall be appointed by current academic year. The Vice President for Administration shall have the option of reappointing members to additional terms. Recommendations for membership from campus constituencies should consider the backgrounds of the persons selected, with a focus on transportation and environmental disciplines and on balancing members between those who routinely use public transportation or other alternative modes and those who drive to campus. The committee will select a Chair. The campus Facility Planning Director, Parking Administrator and Police Chief will serve as Ex Officio members. The composition of the committee will be as follows:

- Two (2) Faculty Members recommended by the Faculty Senate, 3-year term.
- Two (2) Staff Members (campus-wide solicitation) announced in the Staff Bulletin, 3-year term.
- Two (2) Students recommended by the Associated Students, Inc. President, 1-year term.
- One (1) Community Member, 3-year term.
- One (1) Police Chief - Ex Officio or designee, indefinite term.
- One (1) Facilities Planning Director - Ex Officio or designee, indefinite term.
- One (1) Parking Administrator - Ex Officio or designee, indefinite term.
- One (1) Transportation Engineering Specialist - Ex Officio, indefinite term.
- One (1) ADA Community Member recommended by SSWD, 3-year term.

The TAC will meet at a day and time when the greatest amount of members are available to meet (February, April, September, November) in the UTAPS conference room, unless otherwise noted.

The work of the TAC will involve parking, campus and vicinity traffic management, the campus shuttle service, alternative transportation activities including bicycles, car and vanpooling, and coordination with transit agencies.

The University Transportation Advisory Committee shall be the principal administrative campus body responsible for actions in the form of recommendations to the President or his designee policy on all aspects of campus transportation, including:

- Review and critique existing transportation programs;
- Explore and recommend new program;
- Recommend priorities for use of parking fines and forfeitures revenue;
- Aid in the development of policy proposals, fee schedules and other matters related to the conduct of a comprehensive transportation management program.
