

Diversity and Inclusion 2021

Dr. Tina Jordan, Peer & Academic Resource Center (PARC) and Guardian Scholars

I appreciate Tina Jordan's knowledge on the subject of Diversity and Inclusion and her willingness to help others increase their knowledge. Tina has a workshop that she provides to her student leaders called Cross Cultural Leadership. I asked Tina if she could tailor the workshop so we could provide it to the staff in Student Affairs as a learning opportunity, and she was willing and excited for this opportunity. The workshop focuses on our identity and how our cultures influence our decisions and sometimes biases. This work is an important first step to understand if we want to truly move forward to become an Anti-Racist campus. Tina is passionate about this subject and makes others feel comfortable exploring the complexities. She is truly putting in the work to make our campus an inclusive place.
