

## December Star Awards

### **Sean Carrington, Sports Medicine**

Sean goes above and beyond each day for each of his student athletes. He provides fun, thoughtful, and innovative rehab for each student athlete as he uses his strong communication skills to truly understand the various needs of his team. On top of providing care for the Track and Field and Cross-country teams on campus, he is the leader in launching the new internship program for the sports medicine department. He has headed the educational workshops for interested participants as well as matching them up with sport assignments students are not only interested but provide hands on learning opportunities. He is always looking for ways to help students learn and better themselves as professionals. Sean also maintains the department's emergency equipment and continually prepares the sports medicine team for any potential emergency student athletes might face. He always has a smile on his face and is always offering a helping hand for those that need. He plays an interictal role in the success of our sports medicine team and the success of the student athletes he cares for on and off the track.
