

## Individual Excellence in Student Service Award 2023

### Noelle McCurley, Senior Student Support Counselor

Noelle has been a rock for the students she meets and assists. Her excellent ability to meet students where they are is incredible, and she has helped the Division assist students reach their academic goals even during times of great distress.

All students are unique and have different challenges. Noelle can not only work through their issues but be a person they enjoy spending time with and a calming influence. Her style is excellent, in my opinion.

So much is happening on the world's stage, and many of our students are academically affected by it all. Noelle has been nothing but amazing in how she is able to assist students, demonstrate a passion and empathetic style, and serve as a welcoming voice.

I appreciate all that Noelle has personally assisted me with, and the students continue to relay nothing but positive comments when I do follow-up appointments with those referred to Noelle. I cannot think of anyone more deserving of this award.
