

Outstanding Long Term Professional Award 2023

Mary Shepherd, New Student Orientation

While our campus has had several great administrators, Mary Shepherd is not an exception. Mary and her legacy have made an incredible impact not only on our student population but on the Sacramento community. With over 20 years of experience running New Student Orientation, Mary has showed incredible dedication and loyalty to Sacramento State. As she gets ready to retire, it is crucial we recognize what she was able to build. Mary has fostered beautiful relationships with her campus partners, encouraged the growth of student leadership, and shaped one of the strongest programs at Sac State. There is no way to quantify her accomplishments but earning the 2023 Outstanding Long Term Professional Award should be one of them.
