

Outstanding New Professional Award 2023

Nahom Semere, Student Affairs

I believe that Nahom has consistently gone above and beyond for the Division of Student Affairs. He has started his professional journey by being an integral part of overall operations, advancing causes in DEI, assisting leadership with objectives and projects, and his passion for the work is palpable.

Nahom has led efforts to enhance the student experience, has been a leader to our interns, works hard externally of the Division, and has embraced taking on new roles and challenges to better the student journey and campus community including addressing food insecurity.

I have witnessed his growth firsthand since my arrival on campus, and applaud his ability to reframe goals and ideas, work closely with others, and serve as a positive contributor to Student Affairs as a newer professional.
