

Know the Reason - ICT

Know the Reason – ICT

Notice: Items that have a recurring agreement (like an annual subscription, for example) also undergo an ICT renewal process annually.

Equipment

- Will ensure the device complies with CSU and Sacramento Workstation Security Standards
- Will ensure device is configurable and compatible with information security tools and requirements, have regular security patching, and are ready for use across all enterprise campus technology services
- Will ensure device has high-quality hardware components, improved troubleshooting, and clear extended warranty support

Software

Accessibility Compliance

Sacramento State is obligated to buy the most universally-accessible products and must evaluate all prospective technology equipment and or software to ensure accessibility for persons with disabilities in support of state and federal laws.

Information Security

To protect sensitive campus data and ensure security compatibility with campus systems, an information security and vendor security review is required to meet CSU, state, and federal compliance requirements.
