**Brown Issues**

Brown Issues is a leadership-based organization devoted to the advancement of our underserved Brown communities. We encourage these values through three fundamental pillars.

**Pillar I: Education**

Brown Issues advocates for the institutional and non-institutional advancement of education. Along with the concrete goals for working to increase high school and college graduation rates, we also value educational objectives that result in the alleviation of the social ills we currently face.
Pillar II: Patriarchy
Brown Issues understands that a patriarchal value structure exists within the Latino community. This value system is damaging to the women and men within our community and cannot coincide with the advancement of us, as a people. We actively resist patriarchy within our community and encourage women and men to grow into their full capacity.

Pillar III: Ending Genocidal Practices
Brown Issues rejects the self-inflicted genocidal practices of street gang culture. While we understand street violence is a present reality, we work towards the elimination of it as a future reality. We reject violence and criminality on behalf of the mothers, fathers, and children that hope and expect more from our men and women.
